MESSAGE

Dear Students, Parents, and Esteemed Staff,

It is with great pride and joy, I pen down my message for your annual souvenir with my warmest congratulations to everyone for the remarkable achievements you have collectively attained over the years. The accolades you have won in various arenas like Robotic Quiz in the ASIMOV 2024, Times of India- Aqua Regia Quiz, Athletics, Roller Skating, Teakewondo, Oyilattam and Silambam etc at various levels is truly commendable.

It is none less than a pride that, your school is one among the 22 United Nations Designated Schools in India.

This school has always believed in fostering well-rounded individuals, empowering students as learners as well as empathetic leaders ready to serve society. This commitment nurtures young minds to promote cultural awareness, personal growth, and a strong sense of social responsibility, thus contributing to a better and more inclusive world.

As Mahatma Gandhi once said, “The best way to find yourself is to lose yourself in the service of others.” Let this principle continue to guide our journey in education, as we strive to prepare our students for a life of purpose and fulfillment.

In today’s rapidly evolving, digitally driven world, we remain committed to adapting and innovating to meet the needs of this generation. Our efforts are focused on equipping students with the skills and knowledge to thrive in a technology-driven era while ensuring they retain the values of empathy, collaboration, and humanity.

As you celebrate another year of excellence through this annual souvenir, I extend my appreciation to the staff and students for all their endeavours undertaken with utmost enthusiasm and sincerity. May it serve as a source of inspiration for all of us to dream bigger and achieve even greater heights.

With best wishes for continued success.

Dr. P. Nithish. A.R. Singh

President, SBIOA Educational Trust.

MESSAGE

Dear Staff & Students,

Ruby Jubilee is a significant milestone in the journey of S.B.O.A. Matric. & Hr. Sec. School, Coimbatore, which was started in 1985. With a roll of 2800 students and 137 staff, the School has made remarkable strides in terms of academic excellence, sports & cultural achievement. This School has taken part in the process of shaping thousands of lives with the help of the team of experienced staff members who work with commitment to uphold the motto of this institution.

I am glad to know that this School is one among the 22 United Nations Designated Schools in India and the teachers and the students are the UN Volunteers who partake in this great venture. It is a moment of pride that the School activities are registered in the United Nations Global Compact Portal. It's good to know that the School has been accredited with the School Award for the Academic Year 2015 – 2018 by the British Council.

I congratulate the School for winning 'The Times of India – Aqua Regia Quiz' and for also securing a place among the Top 10 Digital Schools in India. In the field of Sports and Games, the School has produced National and State Level Champions and in Cultural, the School stands second to none in Coimbatore for creating proud recipients of International & National Dance Title winners including Guinness Record. I appreciate the students who have achieved recognition in Dr. A.P.J. Abdul Kalam's World Record and Patanjali Book of records through their outstanding performances in Oyilattam and Silambam.

I am happy to see the fully furnished Atal Tinkering Lab functioning in full vigour, providing and enabling environment for students to innovate through a do-it yourself approach and securing great positions at the National Level competitions.

Our Trust motto being 'Educate & Illuminate', S.B.O.A. Matric. & Hr. Sec. School, Coimbatore, aims at providing a comprehensive education in order to prepare children to become self-reliant productive individuals with clarity, precision and independence.

My whole-hearted blessings and best wishes to the Principal and the entire team led by her for the successful publication of the School Souvenir during the 40th Annual Day – the Ruby Jubilee celebration. Always do your best! What you plant now, you will harvest later!

'Consistency is the secret ingredient that turns average efforts into exceptional results.'

A. Senthil Ramesh,

Secretary & Correspondent, SBIOA Educational Trust.

MESSAGE

*It is indeed a great occasion and a proud moment for us, that our SBOA Matriculation Higher Secondary School, Coimbatore has reached a landmark of glorious forty years. On this day, we salute and remember our forefathers, especially our founder **Comrade E A G Moses**, because of whom, we have reached this milestone. It is a matter of utmost pride, that a Trade Union under the banner of SBIOA Educational Trust is successfully running thirteen schools. The phenomenon of globalization has brought about tremendous changes in the educational thought and practices. I am glad that we have modernized the curriculum as well as the pedagogy and given dimensions for holistic education so that the students may actualize their potential and our institution may attain unprecedented heights.*

Even during the tough time of Covid-19, we have kept our flag high. It was because of the tireless and selfless efforts of our Principal, teachers and non-teaching staff, we could face a lot of challenges.

The souvenir, being brought out on the occasion, captures the magnificent moments and outstanding achievements of the school during this odyssey. It is also a tribute to all those members of the SBOA family who have contributed to the growth and glory of the institution over the years. Their singular commitment and untiring efforts have not only established an enviable reputation of the institution, but also serve as a constant source of inspiration for us to carry its rich legacy forward.

My heartiest congratulations to everyone associated with this great temple of learning on this occasion.

MESSAGE

40 years ago, the UNIQUE idea of imparting educational excellence dawned on leaders associated with SBIOA and hence emerged SBOA Matric & Hr. Sec. School, Coimbatore in 1985. The Ruby celebration - “SAMSKRITHIK DHAROHAR” reflects the rich legacy of this mighty school. I am one of those privileged to be associated with this monumental institution. On this momentous and cherishable occasion, I am happy and proud to be a part of this Souvenir and fervently wish very many more years of such astounding celebrations.

MESSAGE

A Message from the Former Secretary and Correspondent_

*As we gather to celebrate the fortieth annual day of our beloved educational institute, I am filled with nostalgia and pride. It is an honor to have served as the Secretary and Correspondent of *SBOA Educational Trust* for a short period and Correspondent of this School from 2012 to 2018.*

****A Journey of Four Decades****

Over the past forty years, our school has grown from a modest beginning to a thriving hub of academic excellence. We have witnessed generations of students pass through our gates, each leaving an indelible mark on our collective journey.

****A Legacy of Excellence****

Our institution's commitment to providing quality education has been unwavering. We have consistently strived to create an environment that fosters intellectual curiosity, creativity, and critical thinking. The numerous accolades and achievements of our students and faculty are a testament to our dedication.

****Gratitude and Appreciation****

I extend my heartfelt gratitude to:

- Our founders, whose vision and perseverance laid the foundation for our institution's success.*
- *Sri. EAG Moses*, the First Secretary and Correspondent of the Trust.*
- *Sri. N. Shanmugam*, the first Correspondent of this School.*
- Our teachers, staff, parents, and students, who have worked together to make our school a shining example of excellence.*
- The Parent Teacher Association and Alumni Association for their invaluable support and cooperation.*

****A Bright Future Ahead****

As we celebrate this milestone, we also look to the future with optimism and enthusiasm. I am confident that our institution will continue to evolve, innovate, and thrive, remaining a beacon of knowledge and wisdom for generations to come.

****Congratulations and Best Wishes****

Once again, I congratulate our school community on this remarkable achievement. I wish our institution continued success, growth, and prosperity in the years to come. Wishing the institution many more years of excellence.

Sincerely,

G Selvaraj

Appreciation on the Occasion of SBOA School's Ruby Jubilee celebrations

Dear Madam/Sir,

It gives me immense pride and joy to extend my heartfelt congratulations to SBOA School Coimbatore on the occasion of your 40th Annual Day - Ruby Jubilee, to be celebrated on the 9th of January 2025.

Established in 1985, SBOA School has been a cornerstone of academic excellence and holistic development in Coimbatore. Your journey over the past four decades has been remarkable, producing not only outstanding academic results but also nurturing students who excel in diverse fields.

Your consistent achievement of a 100% result over many years is a testament to your dedication to quality education. It is commendable that the school is recognized as a United Nations-designated institution under SDG-4, emphasizing your commitment to global educational standards. The British Council accreditation further reflects your school's pursuit of international benchmarks.

The accomplishments of your students in both academics and extracurricular activities bring great pride to Coimbatore. From excelling in national-level sports to earning accolades in debating, skating, squash, and traditional art forms such as Bharatanatyam, Oyilattam, and Silambam, your students demonstrate unparalleled talent and dedication. The state record-breaking performance by Neil Samraj and the gold medal in squash by Harshini Shri are noteworthy achievements that inspire us all.

Being a premier institution in the City, you have produced many good citizens for the nation and across the globe. The school also boasts of creating numerous doctors, lawyers, engineers, bankers, entrepreneurs, renowned Government officials and the like.

As the Member of Parliament for Coimbatore, I am proud to have an institution like SBOA School in our constituency. Your unwavering dedication to shaping young minds and contributing to society is exemplary.

On behalf of the citizens of Coimbatore, I extend my warmest wishes for your Ruby Jubilee celebrations. May SBOA School continue to achieve greater heights and inspire generations to come.

With best wishes and regards.

P. Ganapathy

We are inspiration in action

Message from the United Nations Volunteers - India (UNGC 80881/26D2024)
26/12/2024

Dear Esteemed Sovereigns, Ref: SBOAMHSS -Coimbatore city (480419)

As we gather to celebrate the Ruby Jubilee of “Sanskritik Dharohar,” we are reminded of the rich cultural heritage that binds us together. This celebration is not just a reflection of our past but a beacon guiding us towards a sustainable and inclusive future.

The United Nations Global Compact emphasizes the importance of collective action in promoting sustainable development. Our cultural heritage, “Dharohar,” is a testament to the values of unity, diversity, and resilience. It is through the preservation and promotion of our cultural legacy that we can inspire future generations to uphold these values.

Let us continue to work together, embracing the principles of human rights, labor, environment, and anti-corruption, to build a world where every individual can thrive. Our shared heritage is a powerful tool in fostering understanding and cooperation among nations.

May this celebration inspire us all to contribute to a more sustainable and equitable world, honoring our past while paving the way for a brighter future.

With warm regards,

MESSAGE

Dear principal,

I am in receipt of your letter dated 19th December 2024.

It gives me immense pleasure to know that the S.B.O.A Matriculation Hr Sec School, Coimbatore will celebrate its Ruby Jubilee on 9th January 2025 and publish a Souvenir.

While looking at the emblem of the school, I remember and re-live my early years of study at S.B.O.A School & Junior College, Chennai during the academic years 1997 & 1998.

“Dear Students, as you move forward on your educational journey, remember that the skills, knowledge, memories, experiences, lessons learned and values you've acquired at **S.B.O.A. Matriculation & Higher Secondary School** will empower you to achieve greatness and will stay with you forever”.

My Economics Teacher Mrs. Geetha Vinu always used to say “Be prepared for the worst”. It is a Gospel truth which I follow even now. It gives you the perspective to look for unforeseen situations.

Similarly Hostel Chief Warden Tr. Sapabathy used to say “A place for Everything and everything in its place”. I follow it even now and has helped me to achieve my goals systematically. It makes you an organized manager.

My best wishes for successful publication of the souvenir.

MESSAGE

I am glad to know that S.B.O.A. matriculation and Higher secondary school, Coimbatore, is going to celebrate its Ruby Jubilee on the successful completion of 40 years in the field of education by publishing a Souvenir. Kindly accept my heartiest congratulations on the auspicious occasion. I believe that this special issue not only provides an outlet to the latent creative potential of the students but also proudly showcases the milestones the school has achieved in the field of state and national sports meets. Achievement without happiness is no success at all. And hence, it is again very important to look within and realize as to what it is that one wants.

Education helps one in forging one's own path and also in introspection. It becomes the responsibility of education system to instil in our students those values which help them to create stability in every stage of life. I am happy to note that S.B.O.A lay equal emphasis on training students in multi talent skills like debating, skating, squash, Bharathanatyam, Oyilattum and Silambam, athletic events etc. along with academics.

I convey my best wishes to the Principal, Staff and Students for the coming session and appreciate their efforts towards providing holistic education to their students.

With best wishes

30 Dec 2024

1. I am pleased to learn that SBOA Matriculation School is celebrating its '**Ruby Jubilee Annual Day**' in the month of January 2025. In its 40 Years of existence the school has distinguished itself in providing quality education to the children of Coimbatore and adjoining areas at an affordable cost.
2. The dedication which the management and faculty of the school have displayed over the years has resulted in the students excelling in all walks of life thereby bringing laurels to the school as well as the society.
3. I would be failing in my duty if I do not place on record the exemplary performance of the National Cadet Corps under the able stewardship of Chief Officer Ramesh Babu G R. The NCC sub unit has excelled in all activities and has produced a number of Commissioned Officers in the Armed Forces who continue to hold the school flag high in far flung areas in the service of the nation.
4. I wish Godspeed to Mrs Sabural Banu Ibrahim, Principal and all teaching and non teaching staff of the School.

MESSAGE

It is a moment of pride and joy to join SBOA School & Junior College in celebrating its Ruby Jubilee on this significant milestone.

Over the past 40 years, your institution has demonstrated a steadfast commitment to excellence in education, shaping well-rounded individuals who contribute meaningfully to society.

We deeply value the trust and aspirations of your students - their dedication, talent, and achievements stand as a testament to the strong foundation laid at your school.

Your school's remarkable accomplishments—being a United Nations Designated School, Guinness record holder, and champion of SDG-4 for Quality Education—are truly commendable. Such achievements inspire a generation of learners and educators alike, reinforcing the importance of holistic development and global responsibility.

On this joyous occasion, I extend my heartfelt congratulations and best wishes for continued success in your mission of nurturing future leaders and changemakers. May the legacy of SBOA shine ever brighter in the years to come!

Sir/Madam,

Sub: Congratulations on the Ruby Jubilee Celebration of SBOA Matriculation & Higher Secondary School

It is with immense pride and joy that I extend my heartfelt congratulations to SBOA Matriculation & Higher Secondary School on its Ruby Jubilee Celebration.

The milestone of '**Dharohar**' – The Legacy – reflects 40 years of unwavering commitment to academic excellence, innovation, and shaping the future of countless students. SBOA has been a beacon of educational brilliance, fostering knowledge, discipline, and values, while guiding students to become well-rounded individuals with leadership and social responsibility.

This achievement is a testament to the dedication of the administration, faculty, students, and their families. SBOA's contribution to both academic and social spheres is commendable and inspiring for future generations.

On this auspicious occasion, I extend my warmest congratulations to the Principal and her accomplished team. I am confident that they will continue to uphold and enrich the legacy of excellence for many more years to come.

Congratulations once again on this monumental achievement, and here's to many more years of continued success and inspiration!

Thanks & Regards,

Padmashri Prof. Dr G. Bakthavathsalam MS, FICS, FCCP, FAMS, FMMC, D.Sc.

MESSAGE

It gives me enormous pleasure to extend my warmest congratulations to SBOA Matriculation and Higher Secondary School, Coimbatore, for its excellence in education since its inception. As someone who has worked closely with a few of its distinguished alums in science and technology, I can confidently say that the school has been a remarkable incubator of talent, producing individuals who have made significant contributions across various domains. SBOA's legacy is reflected in its alums, who are skilled professionals and socially responsible citizens. Embodying discipline, integrity, and curiosity, they showcase the critical thinking and resilience fostered by the school, enabling them to excel in the dynamic world. The institution's forward-looking approach to education—integrating state-of-the-art facilities, cutting-edge technology, and an emphasis on academics and extra curricular activities is commendable. SBOA has set bench marks in nurturing curiosity and fostering innovation, preparing students to meet the changing needs of the modern world. Its adaptable curriculum and emphasis on practical learning equip students to lead in their fields, with alums excelling in integrating theory with real-world applications. On this joyous occasion, I commend the leadership, faculty, and staff of SBOA Matriculation and Higher Secondary School for their unwavering dedication to nurturing excellence. I also extend my heartfelt wishes to the current students, encouraging them to take pride in their heritage and strive for even more remarkable accomplishments. May SBOA's legacy inspire generations, guiding them to push the boundaries of knowledge and make meaningful contributions to society.

Congratulations again on this momentous milestone, and I look forward to seeing the school's continued impact in shaping the leaders of tomorrow.

MESSAGE

It is with immense pride and joy that I pen this foreword to commemorate the 40th Jubilee celebrations of S.B.O.A. Matriculation and Higher Secondary School. On behalf of Sri Krishna College of Engineering and Technology, I extend my heartiest congratulations to the school for reaching this incredible milestone of shaping minds and transforming lives through education.

Since its inception in 1985, S.B.O.A. Matriculation & Higher Secondary School has set a benchmark for academic excellence and holistic development. The school's journey is adorned with countless accolades and inspiring milestones.

The values upheld by the Institution highlight its unwavering dedication in nurturing well-rounded individuals. It is truly inspiring to see the school's alumni thrive in diverse fields worldwide, reflecting the strong values and foundation instilled during their time at S.B.O.A.

On this joyous occasion, I extend my heartfelt wishes to S.B.O.A. for continued success in all its future endeavours. May you continue to reach new heights and illuminate the world with your brilliance.

Ruby Jubilee Wish Message

It gives us immense joy and pride to extend our warmest congratulations to SBOA Matric & Hr. Sec. School, Coimbatore on the grand occasion of your Ruby Jubilee celebrations. Completing 40 years of exceptional dedication to academic and co-curricular excellence is a monumental achievement, and we commend your journey of empowering generations through exemplary education.

The school's exemplary achievements be it their remarkable 100% results year after year, recognition as a United Nations-designated institution following the SDG-4: Quality Education, or their well-deserved international school award (2015-2018) by the British Council are a testament to the institution's commitment to nurturing excellence.

The success of SBOA students such as medals at national-level sports competitions, achievements in debating leagues, and recognition in prestigious platforms like Dr. A.P.J. Abdul Kalam's World Record and the Patanjali Book of Records speak volumes about the school's passion for grooming young leaders of tomorrow.

We have observed extensive participation by SBOA School Students in our Spark annual event for school students and winning several prizes. SBOA Matric and Hr. Sec. School continues to shine as an institution that shapes the future with integrity, discipline, and innovation.

On the accomplishment of this great milestone, we wish the management, faculty, and students of SBOA Matric and Hr. Sec. School many more years of this noble journey and become a benchmark institution for other institutions to emulate.

Dr. Sudha Mohanram

26.12.2024

It gives me immense pleasure to know that SBOA Matriculation and Higher Secondary School Coimbatore is celebrating the Ruby Jubilee Annual Day in the month of January 2025

I understand that SBOA Matriculation and Higher Secondary School Coimbatore, run by the Trust of State Bank of India Officers' Association Chennai, is providing a comprehensive education, affordable to all the strata of the society. With the support of the educational ecosystem available at SBOA-C, including the standards, methods of teaching, extra-curricular activities, Management and the teaching community, the students are not only able to excel in the academics but they are also able to bring many laurels to the SBOA-C with flying colours.

Conceiving education, holistically with the principles derived from the Goddess Saraswathi and Goddess Lakshmi, the School Education plays a pivotal role in shaping the destiny of our country. Our country could withstand the global pressures and meltdowns with the robust economy, fundamentally strong value systems rooted in our culture. In this regard, SBOA-C with its motto, "Educate and Illuminate", is doing a yeoman service in laying strong foundation in shaping the future of our Nation. In the years to come, SBOA-C needs to set a high standard, further, and celebrate the Golden Jubilee with greater accomplishments.

Education is the most powerful weapon which you can use to change the world." – Nelson Mandela.

It gives me immense pleasure to know that the SBOA Matriculation & Higher Secondary School is celebrating its 40 years of glory in education.

My heartfelt Congratulations to the Management, Principal, Teachers, Students and Alumni of this School on the joyous occasion of their 40th Annual Day and Ruby Jubilee Celebrations.

Over the years, the school has consistently set benchmarks in academic excellence, extracurricular achievements, and holistic student development.

The remarkable achievements of your students in national and international arenas inspire us all.

We take immense pride in acknowledging the contributions of your alumni, many of whom are part of our institution today, excelling in various fields globally.

May the Ruby Jubilee mark another chapter of outstanding success for SBOA Matriculation & Higher Secondary School.

Wishing you many more decades of impactful education and stellar achievements.

Note of Appreciation

It is with immense pride and admiration that we commemorate S.B.O.A. Metric Hr. Sec. School on its Ruby Jubilee, celebrating 40 years of unparalleled contributions to the field of education. This momentous milestone is a testament to the institution's unwavering commitment to fostering academic excellence, character development, and global citizenship.

The school's distinguished alumni, who have secured places in prestigious institutions and hold eminent positions across diverse fields at both national and international levels, reflect its profound impact on shaping future leaders. Furthermore, the consistent achievement of 100% results over numerous years underscores the institution's dedication to academic rigor and excellence.

S.B.O.A. Metric Hr. Sec. School's distinction as one of only 22 United Nations-designated schools in India championing SDG 4 - Quality Education, along with its accreditation with the British Council's International School Award (2015–2018), highlights its commitment to global standards in education.

The school's students have brought glory by earning recognition in Dr. A.P.J. Abdul Kalam's World Record and the Patanjali Book of Records for their outstanding performances in Bharatanatyam, Oyilattam, and Silambam, showcasing their multifaceted talents and cultural heritage.

As a revered institution renowned for its exemplary contributions to education in the city and beyond, S.B.O.A. Metric Hr. Sec. School continues to set benchmarks for excellence and innovation. On this historic occasion, we extend our heartfelt congratulations and best wishes for continued success and greater heights in the years to come.

MESSAGE

Dear S.B.O.A Matriculation School Family,

As a parent, I am honored to express my gratitude for the institution that has been a significant part of our family's journey for over two decades. My son, Anandh Ram K, joined the school as a young learner in LKG in 2000 and completed in 2014. The strong foundation laid by his teachers ensured that he consistently excelled in academics. His crowning achievements, including securing the school first rank in the 10th standard public examinations and scoring 100% in physics, chemistry, and mathematics in the 12th standard, were made possible by the unparalleled guidance and support of his teachers. Such was the quality of teaching at S.B.O.A that Anandh never felt the need to attend external tuition classes—an exceptional testament to the dedication and expertise of the school's faculty.

Our association with the school deepened further when my daughter, Amirtha Shree K, joined in 2008 for her LKG and completed her schooling in 2022. She too flourished under the school's nurturing environment, scoring 100% in chemistry in the 12th standard exams. In addition to excelling academically, she had ample opportunities to explore her interests in extracurricular activities, which have enriched her personality and confidence.

The long-standing relationship our family shares with S.B.O.A has made it more than just a school—it has been a second home. The commitment of the teachers, and the encouragement we have received at every step have left an indelible mark on us. Their guidance and care have shaped my children not only as successful students but also as responsible individuals prepared to face the challenges of the world.

As the school celebrates its 40th jubilee, I wish to convey my heartfelt congratulations and appreciation for being an institution that consistently upholds excellence in education and holistic development.

Wishing the school continued success and many more milestones in the years to come. With warm regards,

23/12/2024

It is with immense pride and joy that I extend my heartfelt congratulations to SBOA Matriculation and Higher Secondary School, Coimbatore, on the auspicious occasion of its Ruby Anniversary, commemorating 40 years of exceptional service to the field of education since its establishment. This significant milestone is a testament to the school's unwavering dedication to fostering academic excellence, holistic development, and strong moral values among its students. The school has consistently set educational benchmarks, becoming a beacon of inspiration in TamilNadu and beyond. The school's ability to integrate academic rigour with co-curricular and extracurricular activities reflects its commitment to producing well-rounded individuals. One of the school's many achievements is its emphasis on innovation in education. Middle school students actively engage in advanced projects involving Artificial Intelligence, Augmented Reality, game development programming, and robotics, ensuring they are well-equipped for the century's demands. These initiatives underscore the school's forward-thinking approach and commitment to fostering curiosity and critical thinking. SBOA's infrastructure is another shining example of its dedication to quality education. Its state-of-the-art facilities, including advanced labs, a library with 17,000 books, a 3,000-capacity auditorium, and extensive sports amenities, create a holistic environment for growth. Its inclusive community, dedicated staff, and diverse student body embody its mission of quality education. Beyond academics, the school instils values like discipline, integrity, and social responsibility. As its Ruby Anniversary marks, we celebrate its impact and wish continued success in inspiring future generations.

Thanking you

Dear Sir / Madam,

I feel immensely pleased to know that the famed SBOA Matric & Hr. Sec. School, Coimbatore has added another feather in its cap of reaching forty years of yeoman service in the field of education. I congratulate Correspondent, Principal, teaching, non-teaching staff, parents and students on this wonderful occasion of celebrating the Ruby Jubilee celebrations.

My association with SBOA School has been on varied dimensions. Both my daughter and son were the students of this prestigious institution, which paved the way for them to become doctors in the field of diabetes and Eye Disease.

I had been the part of PTA and also had the privilege of being a chief guest for one of their functions. I also had the opportunity to give a guest lecture for the students of class twelve in biology on endocrine system. Also delivered a talk on diabetic awareness for teaching and non-teaching staff members and conducted a diabetic and hypertension awareness screening camp.

The most important aspect which I was really impressed about the school is the commitment and perseverance of the teachers of the school which is vital in bringing of fame and success to this school.

My best wishes to the Correspondent, Principal, teaching, non-teaching staff, parents and students, and I am sure SBOA Matric & Hr. Sec. School, Coimbatore will reach greater heights in the coming days.

DR. R. BALAMURUGAN MD., DIP., DIAB
CHIEF DIABETOLOGIST

From The Editor's Desk

“Nature has given us all the pieces required to achieve exceptional wellness and health, but has left it to us to put these pieces together”

Just a magazine, **“SamskrithikDharohar”**, is an illuminating chronicle of our school that provides an insight into the ethos of the school and reveals in capturing the exhilarating flashback of the inception of the school, its illustrious journey of 40 years marked with diligence, aspirations and the accolades earned in scholastic and co-scholastic spheres during the Academic Year 2024 – 2025.

The institution has traversed a glorious journey studded with numerous landmark achievements in the fields of cultural, academics, sports and more. The souvenir being brought out on the occasion, captures magnificent moments and outstanding achievements of the school – “A journey towards the success”.

The stalwarts had been the stepping stones to elevate the school into prosperity.

I thank the Almighty to serve in this institution during this great occasion. I am grateful to the great contributors and the good will of stake holders who have gone into this gigantic growth of the institution.

I express my gratitude with humility to the founder correspondent Mr.E.A.G.Moses and other dedicated correspondents and antecedents for their prompt, on right direction. Their right directions lead us, as humble followers. My sincere thanks to our parents who supported us as their family members.

I extend my sincere gratitude to the benevolent management headed by the Secretary and Correspondent, Shri.A.Senthil Ramesh, Shri.M.Murugesan, the Resident Correspondent of the school. I thank the other management committee members who have played a pivotal role in the development of the school.

My sincere thanks to all our staff for being the back bone in all the activities of the school.

My heart felt thanks to the members of the Editorial Board who had toiled with a great zeal in bringing this **“SamskrithikDharohar”** into a cherish able memoir magazine.

I pray to the God Almighty, for his everlasting blessings in the upliftment of the school.

“Nature's Music is never over, since the Evolution of Life...”

Principal

SBOA MATRIC. & HR. SEC. SCHOOL, COIMBATORE – 39.

Annual Report – Abstract 2024 - 2025

Respected Dr. Nithish Andreyya Raja Singh, President, SBIOA Educational Trust, Chennai. Distinguished Guests of the day, Shri C.B. Vedagiri, Senior Civil Judge, Commercial Court, Coimbatore and Smt. V. Hemalatha, Deputy Director, Tamil Nadu Forest Academy, Coimbatore. Shri A. Senthil Ramesh, Secretary & Correspondent, SBIOA Educational Trust, Chennai, Shri C. Lazer Jeyaprakash, Associate Secretary, SBIOA Educational Trust, Chennai, Shri S. Prakash, Treasurer, SBIOA Educational Trust, Chennai, Shri M.Murugesan, Correspondent, SBOA Schools, Coimbatore, the Management Committee members, members of the Trust, Former correspondents, Administrators, Former Principals, Alumnus Shri. K.Krishna Kumar, Wing Commander, Air Force Service, PTA President Mr.S.Selvakumar, PTA Vice President Mr.C.R.Ramkumar, dignitaries on and off the dais, PTA members, Alumni, beloved parents, well-wishers, members from the Press & Media, Teaching & Non-Teaching Staff, dear students and all the invitees, I render a red carpet welcome to all.

As the Ruby glimmers bright with its 40 years of brilliance, we have gathered today to celebrate the “**Samskritik Dharohar**”, Ruby Jubilee of SBOA Matric. & Hr. Sec. School, Coimbatore – A beacon of knowledge, innovation and excellence.

I am extremely elated and proud to **untie the Annual Report “Samskritik Dharohar” 2024 – 2025**, a year that continues to echo the spirit of this institution’s rich 40 years of journey. Let us embark this journey together celebrating the essence of SBOA’s Ruby Jubilee.

Over the decades, SBOA has etched its name in the annals of academic, cultural, sports activities and achievements. SBOA Matric. & Hr. Sec. School, Coimbatore, since 1985, has strongly glued to the motto “**Educate and Illuminate**” and remain as a glittering gem in the realm of education, radiating excellence, fostering innovation and shaping the generation of bright minds with unparalleled commitment and care. The school recognizes, appreciates, applauds and nurtures the fine blend of sensibilities instilled in our students and serves as a platform imparting holistic education.

On this auspicious occasion, I feel ecstatic to owe my indebtedness to our magnanimous management SBIOA Educational Trust which acts as a catalyst evolving continuously to keep pace with the changing dynamics of the world and in all our endeavors.

“Raising the Bar: Academic Triumphs 2024”

The glory and reputation of an institution relies on the enthralling academic achievements. The diligence of the teachers and students, their focus, sincerity, commitment,

tolerance, endurance, fetched us recognition. The teachers and students have set new bench marks in the public examination.

- ❖ Students from classes VII, VIII, IX actively participated in Projects on Innovative young minds under IOT Criteria Autobot, Agriculture criteria AgriBot and Electronics criteria Energy Saver organized by Karpagam Academy Of Higher Education And Atal Incubation Council .
- ❖ Avinishilingam Institute of Home Science and Higher education Organized "Techno Science Fair 2k24".
- ❖ UNO Day was observed and 45 UN student volunteers presented PPT presentations on "BRICS Nations".

STUDENTS WORKSHOP

- A career guidance programme was organized for classes XI and XII. Col. CST Swami, Administrative officer, NCC group headquarters and Ms. P. Aparna, Alumna, provided valuable insights and support to the students for clear career decision.
- An Online career guidance programme on the topic '**Career opportunities in Precision and Beyond**' for class XII was conducted by Dr. Ganesh Pandian Namashivayam.
- An online workshop on the topic '**Mental health and Cyber Security**' was attended by class IX organized by Department of School Education and Literacy, Government of India.
- Classes IX and XI attended a workshop on the topic '**Intellectual Property Rights**' organized by Dr. ArunRazaa, Alumnus.

DAY OBSERVANCES

World Environment Day, World Day Against Child Labour, World Blood Donor Day, Toy Day on a Bicycle ride by KG kids, World Hydrography Day, World Elephant Day, International Olympics Day, International Day Against Drug Abuse, Asteroid Day, Hiroshima Nagasaki day, Kamarajar's day, World students day, Bharathiyar's birth anniversary, Outreach Programmes by KG and primary teachers, etc.,

PARENT ORIENTATION PROGRAMME

We strongly believe that the rapport between teachers, parents facilitates the smooth functioning of the school. The school convened Parent Orientation Programmes to kindle awareness amongst parents to learn the art of parenting for all the parents.

- ❖ Mrs.Aswathy, ‘The Times of India’convened a special programme for the parents of class VIII on ‘**Different problems faced by the adolescents and the remedial measures.**’
- ❖ Mrs.Supriyasathish convened an Orientation programme for the late bloomers’ parents of class I to VIII on the topic ‘**Challenges faced by the late bloomers and their parents**’

ROLE OF PTA

The PTA stands as a corner stone of our school’s success, fostering a dynamic partnership between parents and teachers. The PTA President Mr. S Selvakumar, Vice President Mr. C. Ramkumar, Executive Council members and Central Council members play a vital role in the welfare and growth of our institution. Three meetings were held with PTA members to bridge the gap between home and school enriching the educational journey of every child.

FIELD TRIPS - KNOWLEDGE ON THE MOVE

From textbooks to trails, our field trips opened the doors to real-world learning, sparking curiosity and fostering a love for discovery.

- Kindergarten students visited Botanical garden.
- Students of class I went on an educational trip to Traffic park.
- Students of classes II to V visited Botanical garden.
- Students of class VI visited Codissia Book Fair.
- Students of Classes VII & VIII went on a field trip to GEDEE car museum and science museum.
- Students of Classes IX to XII went on a field trip to Barrack and Museum, Wellington.

“NURTURING EXCELLENCE THROUGH DYNAMIC CLUBS”

We believe in nurturing every student’s unique talent and interest. Beyond academics, we provide a wide array of clubs that cater to students’ aspiration.

GROUP A	GROUP B
NCC	ENGLISH CLUB
NSS	TAMIL CLUB
SCOUTS AND GUIDES	MATHS CLUB
RSP	SCIENCE CLUB
KUTTY COPS	HEALTH AND WELLNESS CLUB
BAND	ECO CLUB
	SCHOOL PARLIAMENT
	GK CLUB
	PHOTOGRAPHY
	DISASTER MANAGEMENT
	FINE ARTS CLUB

In our quest to holistic education and in fostering creativity, our school introduced three ground breaking initiatives this year, the Vocational Club, the Arts Club and the Writers' Club.

THE VOCATIONAL CLUB

The Vocational Club of our school empowers students with practical skills and hands-on experiences. From creative crafts to entrepreneurial projects, the school prepares them for a self-reliant and successful future, turning talents into opportunities.

Students explore **embroidery, painting, tailoring, mehendi design, folk dance, classical dance**, honing their talents while embracing self-expression where passion meets purpose.

THE ARTS CLUB - Where creativity comes to life.

The Art Club is a vibrant space where students' imagination meets expression. The club serves to create exemplary artists.

THE WRITERS' CLUB

The writers club has unlocked the creative potential of the young minds. Aspiring budding writers have achieved a remarkable achievement with their articles, poems and imaginative stories gracing the pages of prestigious Newspapers bringing pride to both the school and parents.

KUTTY COPS ACTIVITIES

The school aims to shape responsible citizens. Our Kutty cops initiative has been a resounding success teaching students the importance of traffic rules and road safety through engaging activities.

- ❖ Traffic awareness programme by the classes III to VIII. Inspector of police addressed the students to instill the sense of civic duty and social responsibility.

NATIONAL CADET CORPS

The NCC cadets exemplify discipline, dedication, and patriotism. Through rigorous training, adventure camps, and Social service activities, they embody the true spirit of service and leadership.

- ❖ A Combined Annual Training Camp at Mahalingam College of Engineering, Coimbatore was attended by the NCC cadets. The cadets underwent practice sessions exploring on Aero modelling theory and subjects of Air Force.
- ❖ Deeksha D of IX B attended Shreshtha Bharat Camp for 12 days at Air Force station, Tambaram, Chennai.
- ❖ 100 NCC cadets visited Tarang Shakthi Exhibition at Air Force Station Sullur and witnessed aircrafts like Dhruv helicopter, Tejas fighter aircraft and Dornier transport aircraft.

- ❖ 96 NCC cadets visited Madras Regimental Centre at Wellington, Coonoor. Training on continuity drill was given.
- ❖ Trishna V of XI C attended All India Girls Trekking Expedition 2024 for 8days at JNV, Kulamavu, Near Idukki, Kerala.
- ❖ An online Aero modelling class was attended by the NCC cadets.
- ❖ Mr. Krishna Kumar from NCC Air Wing conducted a practical session for the cadets.

CULTURAL TRIUMPHS

Our students have raised the bar earning accolades through active participation in various competitions. Their passion and dedication continue to inspire contributing to a vibrant culture of excellence.

INTERNATIONAL ACCOLADES

- ❖ **Kalam's world record** organized Oyiallatam Competition. Sharan V of Class IV participated in group world record performed oyilattam for 4 hrs 30 mins.
- ❖ **Patanjali Book of World Record** conducted classical dance competition. K. Sadhika of class II – A participated and received certificate at Kualalumpur.

NATIONAL ACCOLADES

Indian Debate League competition was conducted. The Debater of the school Dhivya Bharik qualified at the state level.

Wiz National Spell Bee organised Spell Bee competition

- Shivamithran S of Class I secured Rank 26.
 - Abhit. K.R of Class III secured Rank 45.
 - HemaYaazhini M of Class IV secured Rank 53.
 - Kavimukil B M of Class IV secured Rank 58.
 - Ayanasahar of Class IV secured Rank 69.
- ❖ Wiz National Spell Bee 2023- 2024 conducted Handwriting competition.
 - Thanushri M of Class VIII secured Rank 4
 - Nadnushanth K of Class II secured Rank 6
 - Jasmikan G of Class III secured Rank 7

STATE ACCOLADES

- ❖ Sri Sakthi Institute of Engineering and Technology conducted space quiz. M. Rakshna of XII performed well and visited ISRO. She witnessed the launch of SSLV- D3- EOS – 08 Mission.
- ❖ Our students participated in the various competitions like Quiz, Treasure Hunt, Elocution, Poster making, etc., They brought laurels to the school.

SPORTS ICONIC MOMENTS

We strongly believe that '**A sound mind in a sound body**'.

SBOA remains in spotlight for the exemplary and unparalleled achievements in the field of sports. Students proved their prowess in the International, National and State level.

INTERNATIONAL SPORTS

- ❖ Nepal Hayashi-Karate Do conducted 6th International Karate Open Akshaya-IV B bagged I place.

NATIONAL SPORTS

- ❖ Indian Yogasana Federation conducted 2nd National Yogasana Sports Championship 2024. Joshika G of class IV bagged I place.
- ❖ Indian Roller Skating Federation conducted 62nd National Roller Skating Championship. Tarun Rishi C of class X bagged Bronze medal.
- ❖ Indian Athletic Federation conducted 39th National Junior Athletics Championship at Bhubaneswar, Odisha. R. Neil Samraj of Class XI won Bronze medal. He broke previous state record within 10.82 seconds and became the fastest sprinter of the state.
- ❖ G Joshika of class IV represented Tamilnadu Yoga Team and won Gold in 2nd National Yogasana Sports Championship 2024 held at Hyderabad, Telangana.
- ❖ Alastair Jonathan Alex of class V won Bronze in the '6th National Ranking Open Roller Skating Championship' held at Goa organized by Roller Skating Federation of India.

STATE LEVEL

- ❖ R. Neil Samraj of Class XI D bagged gold in Athletics organized by Indian Athletic Federation.
- ❖ Sam Charan N of class IX D bagged silver in Athletics organized by Dept. of School Education.
- ❖ C. Tarun Rishi of class X represented Tamilnadu Roller skating team and won gold in Speed Skating organized by Tamilnadu Roller Skating
- ❖ G Joshika of class IV represented Tamilnadu Yoga Team and won Gold.
- ❖ S. EzhilOviya of class VII won Bronze in Taekwondo organized by Taekwondo Federation of Tamilnadu.
- ❖ Navenya of Class XII is Qualified for Nationals in Taekwondo organized by School Games Federation of India.
- ❖ In the Sepaktakraw event organized by Tamilnadu Sepaktakraw Federation, our school team qualified for the Nationals.
 - A. Desreevarini -Class XI
 - M. V. Adhvahita- Class XI
 - Snehal Vikas Surve - Class X
 - K. Nithi Shree- Class IX
 - B.S. Nikitha- Class IX
 - Shrawathi Anbu -Class VIII
 - A N. Akshaya- Class VI

SBIOA Educational Trust conducted Inter SBOA Schools' Athletic Meet. R. Rashmika of Class VIII was honoured with Individual Championship.

At this juncture, the school, takes the pride of being a host school to conduct **Revenue District Games** making **14,500 players** to participate from Coimbatore and Pollachi districts comprising **320 schools**. Thanks to the management and principals of

Ramakrishna College of Arts & Science, KPR College and Hindustan Arts & Science College to conduct the Revenue District Games in their premises.

ATAL TINKERING ACTIVITIES

- ❖ “Program the Prototype” activity was introduced to the students to make them understand the need of Open source programming for the Automated Electronic components with the help Arduino IDE.
- ❖ ATL Orientation Programme was conducted for the students of class VIII. Students learnt about Arduino Programming with the advanced online prototyping tools.
- ❖ Our School was honoured with a memento for the successful completion of the projects by the students on the topics **AutoBot and AgriBot**.
- ❖ A two day workshop on BiboX Microcontroller Board and Pee Cee Play Computer, Programmable Micro controller device was conducted by BiboX Labs, Bangalore.
- ❖ An ATL theme activity “Hot Glue Gun and Soldering Iron” on the need of basic electronic components and 7 Segment display was done by the students of classes VI to VIII.
- ❖ Students took part in District Level Robo Hackathon by Irobo Chakra, SarvaVidhya Fest conducted for the students of VI to XII.
- ❖ The School has registered for SIM – School Innovation Marathon 2024 conducted by AIM, NitiAayog.

CAMPUS CHRONICLES

- ❖ On National Doctor’s day, Dr. Mullai Balaji, Alumnus, Pediatric Critical care, KMCH addressed the students highlighting the secrets of a healthy life.
- ❖ An awareness programme on “**Menstrual hygiene and Adolescent Behaviour**” was organized by our school for classes VII, VIII and IX.
- ❖ “**A New Beginning**”, an empowerment programme for the Non-Teaching staff was organized by the Department of English.
- ❖ **Environmental Awareness Programme** was organized as our school is UN designated. Mr. Subash Srinivasan, Special Sub Inspector of Police from the **Economic Offences Wing** engaged the students on environmental awareness.
- ❖ An eye screening camp was conducted for the classes III to XII by Eye Foundation Hospital.

GRATITUDE

“Gratitude makes sense of our past, brings peace for today and creates a vision for tomorrow”

I owe my heartfelt thanks to our eminent leader Dr. Nithish Andreyya Raja Singh, President, SBIOA Educational Trust, Chennai, for his magnanimous support and motivation. I express my deep sense of gratitude to our Distinguished Guests of the day, Shri C.B. Vedagiri, Senior Civil Judge, Commercial Court, Coimbatore and Smt.V.Hemalatha, Deputy Conservator of Forests & Deputy Director, Tamil Nadu Forest Academy, Coimbatore for gracing the occasion. It is indeed your benign presence which made this evening, more meaningful.

I render my heartfelt thanks to our revered Secretary & Correspondent Shri A. Senthil Ramesh, Secretary & Correspondent, SBIOA Educational Trust, Chennai, who is the epitome and pillar of our success. I owe my indebtedness to Shri C. Lazer Jeyaprakash, Associate Secretary, SBIOA Educational Trust, Chennai who is instrumental in the growth of our school. I place on record, my thanks to our patron, Shri S. Prakash, Treasurer, SBIOA Educational Trust, Chennai, for his patronage in the development of our school.

I express my sincere thanks to our vibrant, resolute Correspondent Shri M. Murugesan, SBOA Schools, Coimbatore for his unflinching support. It would be the most befitting acknowledgement at the stage to applaud his tireless effort in planning and execution in all the endeavours of our school.

It is my great pleasure to thank all the SBOA school Correspondents, Trust Members, Former Correspondents, Administrators, Former Principals and Alumnus Shri K.Krishna Kumar, Wing Commander, Air Force Service. I record my thanks to our PTA President Mr.S.Selvakumar, PTA Vice President Mr.C.R.Ramkumar, dignitaries on and off the dais, other PTA members, Parents, students, Press & Media for their overwhelming support in making the occasion a grand success. It is high time to light candles of thankfulness to all the teaching and non-teaching staff.

With a strong vision and mission of moulding the best citizens, I assure that SBOA would march forward with heads high to touch the zenith with the collective effort of all the teachers, students and the Management.

I am sure that this Annual Report **Sanskritik Dharohar** is a record of unbeaten tally of achievements and ace of performances proving that we SBOAns are always competent, committed and strong aspirants to pursue goals and at the same time set the path for greater accomplishment in the years to come.

I wish to conclude this presentation thanking the marvellous and abundant showers of blessings of the Almighty. May His blessings and grace always continue to pervade in our lives.

District Revenue Officer,Coimbatore

Today, I attended the valediction of ECA. A glimpse of the ECA reports and club reports clearly speaks volumes of the high trends set by this school in imparting not only Academic Excellence, but also all-round development of a student. The wide range of clubs starting from science club, Philately, etc to ECA club explains the importance of the all round excellence given to the students here. The way in which the dignitaries were received and the entire way in which the valediction function was co-ordinated signifies the excellent stands set by the Management of this school.

Cheers to NCC cadets, school Band and all the clubs. Good Luck, All the Best.

26.08.2015

U.N.Shankar Ram, Director, Grey Matter Academics Chennai.

Very impressive and vibrant bunch of students. Many of their wanting to do well in life. Wish them all the best.

15.08.2015

D.D. Chowrasiya, Deputy Commandant, 105 Battalion, Rapid Action Force.

As chief Guest of Independence day I enjoyed the function. I always remember this day in my life. Best wishes for the school management, teachers and students. Visited this school as chief guest in Independence day celebration. All function enjoyed, memorable function.

14.06.18

Sujit Kumar, IPS, Deputy Commissioner of Police Traffic, Coimbatore. I am pleased to see the kind of tradition being followed in this school regarding naming of their group houses as Cheran,Cholan, Pandian and Pallavan . Nice gathering, Nice students,teachers ,very good school building . I wish all students,teachers and management all the best for their future. May this school excel in all the fields.

04.09.2015

K. Ramaswamy, TNAU, Coimbatore

As a Social justice, the officers' association of sbi, started the school to educated the youth in Coimbatore. This attempt has helped the lower strata population to build Intellectual Society among the poor. Effort of the Teachers in uplifting the performance of these younger generation is appreciable. I wish this efforts should lead to expansion to college level and congradualte the Teachers and Office bearers for this success. May the Nature nurture this effort to bloom to a Universal Institution in strength and size.

Mrs. S. Madhuranthagi, Revenue Divisional Officer, cbe. Agri Mega fair 2016 is a very welcoming initiative. I neatly had a good time here. Very happy to see to students to exhibiting their talents. I wish the school to conduct more such fairs & motivate students. I wish the management and school a very good luck.

31.01.17

Col. G. Vinod, Training Officer, NCC Group HQ, Coimbatore.

It was a great privilege to be invited to the 31st sports meet of the school. I was really delighted to see the excellent display put up by the students in Guard of Honour, March past, Variety entertainment, Band display and Drill by the students. My appreciation to the Principal, Head Mistresses, Teaching staff, Physical education staff, non teaching staff for the excellent show. I wish the management, Staff, Parents and Students all the very best for the future.

24.11.2015

Dr. K.G. Bakthavatsalam, Chairman, KG Hospital

I have visited this school for the 11 time. One of the best schools in Tamilnadu. Educates the children in an exemplary manner. Dedicated Principal & teachers. Dynamic Trusties and Correspondants and what a great vision for SBOA association. God bless.

31.01.17

Mr. A. Amalraj, IPS, Commissioner of Police, Cbe.

Was happy to be present during the 31st school day celebrations. The school with its pool of outstanding teachers will in no doubt provide a launching pad for the aspiring minds to reach great glories. I wish all the students a bright future. Dr. A.P.Jayaraman, Nuclear Scientist, ExBARC. It was an amazing academic experience for one to have interacted with the beautiful minds of this institution. The students proactively participated in the experiments and the scientific method could be well illustrated. The electronic gadget and this activity was explained to me by Sreenitha in a truly professional style. Great accomplishment for an educational institution under dynamic leadership.

28.02.18

P.Ayyannan, Chief Education Officer, Coimbatore.

I convey my wishes to the management of this institution, Principal and Teachers for arranging a separate function for the winners of ECA. Instead of giving more importance for academic activities also give priority for extra curricular activities helps the students in overall development and also help to show the individual talent. I appreciate the efforts of teachers to increase the performance of students in public examinations. I wish the management and teachers to the activities for the coming years and I pray for success.

THE TIMES OF INDIA

CHILDREN ARE THE FUTURE OF THE COUNTRY

The nation's future citizens are its children. The children of today will determine the nation's future. The future of the nation will be destroyed if youngsters are not raised properly. Jawaharlal Nehru, our late prime minister, correctly recognized this. He therefore suggested that instead of celebrating his birthday on November 14th, people should mark this day as Children's Day. India has celebrated November 14th as Children's Day annually since 1956. 'Children are like buds in a garden and should be carefully and lovingly nurtured, as they are the future of the nation and the citizens of tomorrow,' said Jawaharlal Nehru (Chacha Nehru). Each child is unique

and has high potential to achieve something great. Every child has the capacity to transform the world. First and foremost, people must treasure the gift of life that God has given them and remain focused on their values and life's ultimate purpose. They must move forward confidently in the face of difficulties if they are to become successful citizens of India. It is good to come out of our comfort zone to achieve great things in life. We children can even teach our elders when it comes to doing something for the nation, with our will power strong and goals clear, we can defeat the greatest of peo-

ple who can't make our country a better place. If we all come together and decide to do something, I'm sure that there is no one who can stop us. No one has the power to. So my friends, let us all heal the world and make it a better place. Let us all take an oath that we will strive to do anything for our nation and won't be afraid of anything that comes in our way, as we are the children, and children are the future of our nation.

WRITING

Writing means different things to different people. Ask a poet, and they'll tell you it's their way of expressing themselves. Ask a content writer, and they'll say it's how they make a living. Yet, there's no denying that writing is an essential part of our lives. The ability to use words to express our deepest thoughts is invaluable, helping us communicate and share our unique perspectives with others. Before we put words on paper, it's important to have a clear idea of what we want to say. This involves organizing our thoughts and processing them before writing. This approach enhances our critical thinking. Even if we struggle with clarity, coherence, and organization in our writing, we should keep practicing to improve. With time and effort, we will achieve excellence. Children who learn to write

early are better equipped to understand the significance of reading and writing in their lives. Let your words be a way for others to discover who you are.

W mode of relaxation. It's about the moments that stir the soul, the thrill of witnessing extraordinary feats and the camaraderie shared with fellow fans. For those who find joy in watching cricket matches unfold, each game is an opportunity to escape into a world of excitement and suspense. From the comfort of living rooms to bustling sports bars, cricket fans gather to witness the drama unfold on the pitch. It is a ritual that transcends age, nationality and background, uniting people with a strong passion for the sport. The familiar sound of leather meeting willow the roar of the crowd after a boundary, and the nail biting tension of a close finish all contribute to the unique appeal of cricket as a spectator

long day's chores as the ebb and flow of the game provide a welcome distraction from everyday concerns. Whether it's a quick fire T20 match or a timeless test battle lasting days. The allure of cricket lies in its unpredictability, no two matches are alike and every game brings with it the possibility of witnessing history in the making of a record, breaking century, a stunning catch or a match winning spell of bowling. These moments not only entertain but also inspire admiration for the skill and athleticism of the players. Technology has transformed the experience of watching cricket, bringing fans closer to the action than ever before. High definition broadcasts, slow motion replays and expert commentary provide viewers with insights into the nuances of the game, enhance-

cricket fasters a sense of community among fans. Whether celebrating a victory or communicating a defeat the shared emotions and experiences create bonds that transcend geographical boundaries. In essence for those who find joy in watching cricket it's more than just a sport. It's a passion that enriches life. It is the thrill of being part of something bigger than oneself, the joy of experiencing unforgettable moments and the satisfaction of supporting a team through triumphs and challenges. So whether you're a casual viewer or a die hard fan the next time you settle into watching a cricket match, savor the experience, embrace the excitement, cherish the camaraderie and revel in the magic of a sport that continues to captivate hearts around the world.

REDISCOVERING THIRUKURAL

Though I have been in possession of Thirukural for a long time when I read in Times of India, that too by my favourite debator Bharathi Baskar, I was tempted to read and store in my heart. It's like carving the best out 1330 kurals and spoon feeding adding spice to Thirukural with her worldly knowledge in a simple language made us create an interest towards the Thirukural. Hats off Times of India for the initiative taken to spread Thirukural.

Diwali is a major festival in India, celebrated with great enthusiasm and joy. People observe this occasion by bursting firecrackers, lighting diyas, enjoying delicious food and sweets, worshipping deities, and starting the day early for traditional purification rituals. Diwali symbolizes the triumph of good over evil, commemorating Lord Krishna's victory over the evil king Narakasura. Known also as Deepavali, this festival is deeply rooted in Indian history and culture. People across religions look forward to this special celebration each year, making it a truly unifying festival in India.

ORIGINAL ORNAMENT

"Original Ornament" Hearing this, we would anticipate it would be an article on gold, silver or other metals and materials used for beauty... but I am going to explain about the original ornament which not only increases our physical appearance but teaches good qualities that a person should have. The ornament of hands is not bracelets, but it is a charity! We have heard the saying, "Truth is always eclipsed but it is not extinguished". It was realized and explained by our ancestors. They explain, "truth is the real ornament of throat" Listening to lectures and scriptures that are based on good deeds, acts as an ornament of an ear! Thus, they conclude their verses by asking a question, why do you want to give more importance to ornaments leaving the original reality, authority and charity?

IN MEMORY OF RATAN TATA

"Don't wait for opportunities to come to you, create your own opportunities." - Ratan tata.

He was an extraordinary human being. He was a great philanthropist, donating billions of dollars for the upliftment of the impoverished. He was awarded with Padma Vibushan in 2008. He turned Tata Group from an Indian-centric organization to a global business. His focus on excellence, innovation and adaptability have contributed to the success of the Tata Group and his commitment to ethical leadership and corporate social responsibility has earned him respect and admiration. I express my deepest condolences on the demise of the country's renowned industrialist and social worker.

THE PROFOUND IMPACT OF TEACHERS: SHAPING LIVES AND FUTURES

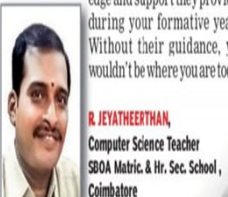

Teachers play a crucial role in shaping the future of their students, guiding them toward success in their careers and helping them become responsible citizens. A good teacher not only imparts knowledge but also fosters character development, making students better individuals in society. Teachers recognize that students are the future of any nation, and the progress of that nation rests in their hands, molded by the guidance and care of their teachers.

The influence of a teacher is profound and far-reaching, impacting society in ways no other profession can. Through love, dedication, and moral commitment, teachers shape students into responsible and capable citizens. A teacher has the power to transform lives, imparting life lessons that students carry with them forever.

They influence students' choices, behavior, and passions, nurturing their strengths and helping them grow. One of the most rewarding aspects of teaching is instilling a lifelong love of learning and making students feel valued. Teachers

have the unique opportunity to teach subjects they are passionate about while also imparting essential moral values.

As students grow and explore their own passions, they often inspire their teachers in return. If you can read and understand these lines, take a moment to thank your teachers for the knowledge and support they provided during your formative years. Without their guidance, you wouldn't be where you are today.

R. JAYATHEERTHAN, Computer Science Teacher SBOA Matric. & Hr. Sec. School, Coimbatore

LACK OF WATER, LACK OF LIFE

Every year, we hear about the severe water scarcity faced by the people of Chennai. During the rainy season, our homes are often flooded, yet in the summer, we struggle to find enough potable water. Have we ever understood the root cause of this recurring problem? One major factor is the failure to segregate waste. Take Pallikarai, a marshy area in Chennai, for example. Like a sponge absorbs water, marshy lands naturally soak up rainwater, helping replenish groundwater levels. But when we cover this land with plastic waste and other non-biodegradable garbage, it acts like a plastic cover inside a plastic cover—it blocks the land's ability to absorb water. This causes the groundwater level to drop drastically. Moreover, water in some areas turns pink due to the presence of cyanobacteria thriving in the waste. This polluted water mixes with other water bodies, contaminating them as well. Imagine the consequences if we were to use this water. The government has taken various measures to address this issue, one of which is binning. However, this process often leads to health risks because it's carried out long after the waste has been dumped. Cities like Indore, India's cleanest city, also use binning, but with greater safety because they enforce strict waste segregation. What can we do to help in this fight? Start by segregating your waste—it's a small step that can protect you from bigger dangers in the future.

A. SREE VARSHANA, CLASS IX SBOA Matriculation Hr. Sec. School, Coimbatore

TIME MANAGEMENT A KEY TO SUCCESS

Time management is a skill I am determined to acquire this academic year. The saying "Time management is life management" truly resonates with me. To manage time effectively, it's important to follow these steps:

Task Listing: Begin by listing all the tasks you need to accomplish each day.

Time Scheduling: Create a time schedule for each task. Make sure to allocate specific time slots for daily chores and routines, and stick to them.

Prioritizing Tasks: Start with smaller tasks that require less time, and complete them first. Save more complicated tasks that may need assistance for when you feel most energetic.

Planning for New Tasks: For new tasks or those that require more time,

plan to tackle them on the weekend. When scheduling time, be sure to include not just work-related tasks, but also extracurricular activities, reading time, household chores, family time, and time for learning new skills.

The key qualities for effective time management are determination and perseverance. No matter what obstacles or challenges arise in our daily lives, these two qualities will help us stay on track. With proper time management, we can follow our work schedules with ease, reducing stress and anxiety. Remember, it's "Now or Never," because procrastination is the enemy of success.

SHARNITHAA J.S., Class VII, SBOA Matriculation HSS, Coimbatore

THE HEART OF HARM

Education is not preparation for life; education is life itself. Indeed it's true, students' life is the best life because it is a life of learning, growing and exploring. I have learnt a lot from my twelve years of schooling. I have learnt many theorems of life. Every single second of my life as a student has taught me many valuable lessons. It also led me to adopt many ethical skills which help me in all the aspects. As I had my board exams in the past academic year I got an opportunity to acquire one more skill which really made me a broad mind and happiest person in my life. Acceptance is the

key to unlock you which I want to year is acceptance. It helped me and to a weakner, I moved to a new place, I allowed here I step ahead, transformation.

HARSHITH, SBOA Matric Coimbatore

A RADIANT CELEBRATION, GREEN AND BRIGHT

Diwali, the festival of radiant light, Darkness fades, joy takes flight. Sharing sweets and gifts with glee with cheer, Love and laughter flying free from fear. A time with fun, Crackers blaze like a Sun. A sacred day, with a dazed sight, Vibrant patterns dance through night. But the smacks go black And makes us snack. It changes tack dark, So animals hark. Suffocating smoke rising from blazing jackers, Eating your lungs, this snackers. Provokes rocking rackets, Disturbing yackers and slackers Only occasionally, we back track. We shall have it in our backpack. Let's celebrate this Diwali green And fabricate our track clean.

SBOA in Press – News Paper Publications

SB.O.A. Matric. & Hr. Sec. School, Coimbatore observed 25th Kargil Vijay Diwas on 26th July, 2024. It commemorates India's exceptional victory in the Kargil War of 1999. This event aimed at honouring the soldiers who sacrificed their lives in the Kargil War. Special Address was given by Lieutenant Colonel D.Nirmala who served in the India Army, commissioned as Military Nursing Service for 33 long years and retired in 2017. She served in various parts of India in all 5 commands. She served during the Kargil War, attended the War casualties and also in the insurgency area.

A special assembly was organized to honour the Kargil heroes' sacrifice and dedication towards our motherland. Chief Guest Lieutenant Colonel D.Nirmala gave a vivid picture about the Kar-

SBOA

gill War. She spoke about the selfless service of the warriors, wounded soldiers, bunkers and natural defense. She emphasized the need for determination to face challenges in life.

The students' presentation on Kargil heroes stole everyone's heart. Speeches and poems on soldiers kindled patriotism in the students. M. Murugesan, Correspondent of SBOA Schools, Coimbatore briefed the contribution of the soldiers and motivated the students to render the best for the nation. Sabural Banu Ibrahim, Principal delivered the 'Key Note Address'. Jeeva Senthil, Vice Principal and Compartment Heads, K.L.Shobha and Maria Stella graced the occasion. The programme came to a close with Vote of Thanks and the National Anthem.

THE QUIZ BUZZ AT SBOA

Literature is the mirror of life. In such a great field, we have many witty writers who touch our hearts with their words. Among them J.K. Rowling is an outstanding British writer and a philanthropist. She is well known for her seven volume fantasy named Harry Potter. On account of her birthday on 31st July, SBOA Matric. & Higher Secondary School, Coimbatore conducted a quiz competition for the students.

The quiz master Abilash, School Librarian, conducted the competition which had four rounds. Participants took part with great excitement and enthusiasm. Questions were based on J.K. Rowling's

biography, books and important dates.

The winners, Ashwin V. of class IX & Harshan P. of class VII grabbed the first place, Naman J. of class IX & Chirag K. of class VII got 2nd place, Cibil S. of class VIII & Fahim F. of class VII got the 3rd place. Master Sivaguru V.A. from class IX was the Score Keeper. M. Murugesan, Correspondent, SBOA Schools, Coimbatore lifted the spirit of the students with his encouraging words. Sabural Banu Ibrahim, Principal, SBOA Matric. School, Coimbatore, witnessed the competition and appreciated the winners and participants. The event enriched the curiosity of the students and motivated them to explore more.

COIMBATORE

Kindergarten Graduation Day celebrated

S.B.O.A Matriculation & Hr. Sec. School celebrated kindergarten graduation day. A Senthil Ramesh, president, S.B.I.O.A Educational Trust; A V Joseph, secretary and correspondent; Santhi, associate secretary, and Manimaran, treasurer, greeted the children with words of appreciation for their successful

completion of kindergarten. M.Murugesan, correspondent S.B.O.A schools, Coimbatore, addressed the gathering. Sabural Banu Ibrahim, principal, S.B.O.A Matriculation and Hr. Sec. School, CBE introduced the guest, Dr. Vikash Vittal, head, Dept. of SGE Karpagam Hospital, (Alumnus of SBOA MHSS, CBE).

Subramaniam V., Sathish R., and Sankar A., trust members; S. Selvakumar, PTA president, graced the occasion. Sujatha Ramakrishnan, assistant headmistress, presented the annual report of the Kindergarten 2024 by briefing the imprints and achievements of the toddlers.

Nuclear energy: The only viable option for our future, says scientist Joy P Varghese

TIMES NEWS NETWORK

Coimbatore: With the available resources and the constraints we face today, nuclear energy is the only viable option for the future, said Joy P Varghese, scientist and site director of the Kudankulam Nuclear Power Project of NPCIL, here on Friday.

The Times of India, in collaboration with the Nuclear Power Corporation of India Limited (NPCIL), organised the NIE-Educator's Knowledge Meet-2024 at The Residency Towers, Coimbatore. Over 102 participants, including 41 principals and 61 teachers from 58 schools, gathered to discuss the topic "Nuclear Energy: Clean, Green, and Sa-

NIE-EDUCATOR'S KNOWLEDGE MEET-2024: The Times of India organised the event in collaboration with NPCIL

fe." Joy P Varghese highlighted the current energy mix in India, stating that thermal energy from coal and fossil fuels plays a major role.

"Nuclear energy currently constitutes only about 2.5% of our energy mix, which is not significant," he noted. "However, considering the future, our options are limited.

Hydro plants have reached their saturation point, and we can't expand much further."

He emphasised that while thermal energy is currently the primary source, its sustainability is uncertain. "What alternatives do we have? Wind and solar energy exist, but they have their limitations; for instance, the efficiency of a wind turbine is only about 22%," Varghese explained. "Thus, with the available resources and constraints, nuclear energy stands out as the most viable option for the future."

Umed Yadav, additional

chief engineer in the Directorate of Corporate Planning & Corporate Communication at NPCIL, Mumbai, spoke in detail about common misconceptions surrounding nuclear energy and its safety aspects. Following his presentation, there was a Q&A session where principals and teachers raised various questions, which Yadav addressed.

Quiz master and founder of Quiz Venture Mindcogs, Vinay Mudaliar, set a lively tone for the event with an engaging quiz that teachers participated in. The teachers also took part in a poster-making session on the uses of nuclear energy in daily life, fostering team building.

SBOA COLOUR'S DAY CELEBRATION

In a vibrant and joyful display of colours in SBOA Matriculation Higher Secondary School, Coimbatore celebrated its colour days with the primary colours like Red, Green, Blue and Yellow for the students of class LKG in the month of July, 2024.

The event was a delightful explosion of hues and creativity designed to educate and entertain the young learners of Kindergarten. The children dressed in outfits representing the colours. Classrooms were transformed into colourful wonderlands with decorative materials. The children proudly showcased their colourful toys in the classrooms.

tured with various fun and colourful activities like talk about on colours, Art and Craft, Various Sensory Play and Balloon Fun. M. Murugesan, Correspondent, SBOA Schools, Coimbatore cherished the glow of children and made the event a special one. Sabural Banu Ibrahim, Principal, SBOA Matric. School, witnessed and appreciated the wonderful talk of the children. Colour Day is not just about learning the colours but also roasting the sense of community joy.

The success of colour day underscores the importance of playful interactive learning in early childhood education making it a cherished moment.

BRICS AND BEYOND: SBOA LEADS THE WAY ON UNO DAY

SBOA Matriculation & Higher Secondary School, Coimbatore targets in educating the students about global unity to create a world of possibilities. The United Nations Organisation (UNO) day is observed globally on October 24th. In order to commemorate the UNO day, SBOA Matriculation & Higher Secondary School, Coimbatore observed UNO day on October 25th, 2024 at the school premises with great enthusiasm.

Sabural Banu Ibrahim, Principal, SBOA Matriculation & Higher Secondary School, Coimbatore welcomed the gathering and introduced the guests of the day. M. Murugesan, Correspondent, SBOA Schools, Coimbatore addressed the gathering underscoring the significance of the United Nations Organisation and its role in shaping

the global, economic and political dynamics.

The chief guest of the day, Dr. Sekar Srinivasan, CEO, Administrative Director, Chellammal Educational Society, Chennai and active researcher in various professional bodies recipient of Bharat Jothi Award, Rajeev Gandhi Excellence Award, Lifetime Achievers Award, INSA vis-

iting Fellowship Award and Sir C.V Raman Best Paper Presentation Award, delighted the audience with an interactive session and commended the school's initiative for fostering a sense of global citizenship amongst the students.

The event was marked with insightful presentations by the UN Volunteer students who showcased the knowledge in BRICS through a series of PowerPoint Presentations under the able guidance of UN Volunteer teachers.

The PowerPoint presentations were highly informative. All the UN Volunteer students were given shields for their involvement and commitment. The programme conveyed a message of peace, unity and collaboration for a better world and concluded with the vote of thanks.

பள்ளி, கல்லூரிகளில் ஆசிரியர் தினம்

பங்கேற்றனர்.

ZEST WITH COLOURS AT SBOA

The SBOA family, believes that creativity crawls in the minds of kids when they fantasize. During the month of July 2024, class LKG was filled with activities to help children recognize and appreciate different colours through engaging hands-on experiences. On Pink Day the classroom was adorned with various pink objects and decorations.

The children were encouraged to bring objects that were in pink, and they were displayed prominently. During the activity, students sang songs in the colour pink and discussed various pink objects in our environment.

The children participated in a coloring activity where they used different shades of pink to create beautiful artwork. This helped them understand the variations and significance of the colour pink. For Purple Day, the classroom was drenched with purple decorations and objects.

The main activity involved was fingerprinting to create grape clusters. Each child was given a sheet of paper with a grapevine outline. Using their fingers dipped in purple paint, they made impressions to repre-

sent grapes. This activity not only taught them about the use of their fine motor skills and creativity.

The activity was accompanied with a song about grapes and it's nutritional value. On Brown Day, the classroom was decorated with brown objects and images. The primary activity was to perform sand art with camel outlines.

The children spread glue on pre-drawn camels and then sprinkled brown sand on them to create textured artwork. This activity provided a tactile experience and helped the children know better about the colour brown through a fun and an interactive method.

The habitat of camels was discussed and songs on desert animals were sung. For Orange Day, the classroom was vibrant with decorations in orange. The children were engaged in an ac-

tivity with crushed paper to portray carrots. They were given pre-cut carrot shaped tissue paper in orange colour. The children crushed the tissue paper into small balls and glued them onto the carrot shapes. This activity enhanced their fine motor skills and allowed them to explore the texture and colour of orange. Discussion on the health benefits of eating fruits and vegetables took place.

For each Colour Day, the

classroom was meticulously decorated to reflect the theme of the day. Objects related to the colour were displayed, and the entire environment was transformed in order to immerse the children into the beauty of colours. Songs related to each colour were sung, and various activities were conducted to reinforce the learning.

We also recorded videos of the activities to capture the enthusiasm of the children, which was shared with the parents to showcase the participation and learning of their kids. M. Murugesan, Correspondent, SBOA Schools, Coimbatore graced the occasion with his valuable presence. Sabural Banu Ibrahim, Principal, SBOA Matric. School, encouraged the children with her positive address.

These Colour Day activities were designed to be both educational and enjoyable, ensuring that the children would not only learn about colours but also develop their creativity, fine motor skills, and understanding of the world around them. We believe these activities would have been highly beneficial in promoting an interactive and fun learning environment for the upper kindergarten kids.

JINGLE BELLS AT SBOA

The joy and spirit of Christmas radiated at SBOA Matric. & Hr. Sec. School, Coimbatore with Christmas celebration on December 19, 2024 at the school premises. M. Murugesan, Correspondent, SBOA Schools, Coimbatore extended his heartfelt greetings for Christmas and New Year. The celebration commenced with address of welcome followed by an inspiring speech by Sabural Banu Ibrahim, Principal, SBOA Matric. & Hr. Sec. School, Coimbatore who encouraged the students to embrace humanity, simplicity and kindness.

A vibrant dance and heart warming skit stressing on joy of sharing enthralled the audience. The significance of the Christmas tree deeply resonated with the audience. The much anticipated arrival of Santa Claus brought an explosion of joy and festive vibe among the audience.

The Kindergarten children added magical charm by spreading smiles and festive cheer. They stole the show with their performance in Santa Claus. The celebration concluded with a sense of joy instilling values of love, sharing and cohes-

SBOA SCHOOL OBSERVED INTERNATIONAL DAY AGAINST DRUG ABUSE AND ILLICIT TRAFFICKING

SBOA Matric. & Hr. Sec. School, Coimbatore joined the global community in observing the International Day Against Drug Abuse and Illicit Trafficking on 26th June 2024. The event was aimed at raising awareness about the dangers of drug abuse and promoting drug-free environment, was marked by an inspiring speech of the esteemed Chief Guest Dr. R. Madhu Sairam, MD, Radiotherapy, Consultant Radiation Oncologist, KMCH Coimbatore.

The program began with the solemn assembly where the students gathered to reflect on the significance of the day. Sree Varshana A of class IX welcomed the gathering.

Harshita S of class XI introduced the chief guest. M. Murugesan, Correspondent, SBOA schools, Coimbatore delivered the

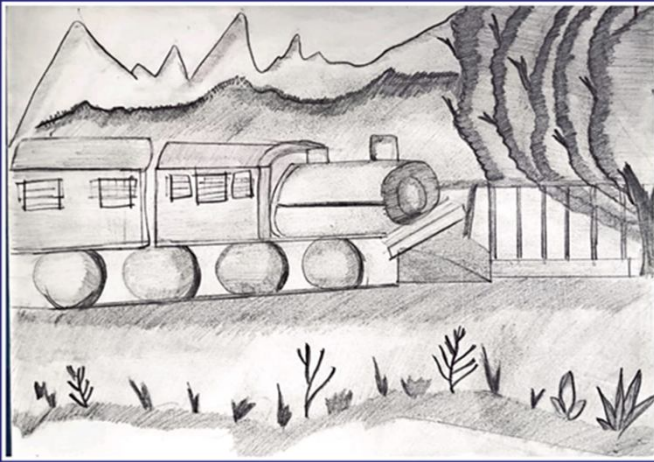

keynote address by highlighting the importance of educating young minds about the perils of drug abuse and the role of community in combating this issue. The Chief Guest Dr. R. Madhu Sairam, MD, Radiotherapy, Consultant Radiation Oncologist, KMCH Coimbatore, emphasized the detrimental effects of drug abuse on individuals and society. He shared valuable insights on the physical, mental and social consequences of drug addiction urging the students to make informed choices and resist peer pressure.

The speech also covered practical tips on how to stay drug free, the importance of seeking help if needed and the role of support systems in recovery. Sabural Banu Ibrahim, Principal, provided valuable insights into the alarming rise of drug abuse among youth.

"Awareness is the first step towards prevention". It's crucial that we equip our young generation with the knowledge and resources to say no to drugs and lead healthy productive lives. Additionally a pledge was taken by the students to commit to a drug-free lifestyle and to support friends and family in doing the same.

The awareness programme came to a close with a vote of thanks and National Anthem. The International Day against Drug Abuse and Illicit Trafficking at SBOA MHSS Coimbatore was a resounding success. The school reaffirmed its commitment to fostering a safe and supportive environment where students can thrive without the threat of drug abuse.

ARTICLES
VALUES-SHORTAGE OF ROLE MODELS

**Vidya Dadati Vinayam,
Vinayadyati Patratam,
Patratvanapnoti dhanam,
Dhanatadharmaha tataha sukham**

Education begets humility, humility begets good character, with good character one earns wealth and with wealth one does righteous actions, from which one gets happiness. Thereby it is only through education and more education that we can instill into the mind of man the sacred values of human life.

**“Everyman Stamps his value on himself
Man is made great or small by his own will”.**

J.C.F.VON SCHILLER

*From childhood, the individual finds the role model in the family. How ever, the conflicts in value professed and practiced in the family environment places him, in an atmosphere of insecurity. Selfish motives, aggressive possession behavior, an urge for gratification and economic priorities leave one with a belief that the individual values are more important than that of the family **VALUES**.*

Values are generally defined as a set of belief or practices upheld by an individual, society, or a nation across the World. The geography, the political status, the economic ambience, the security systems, influence the generation and practice of the values. Every society, every country has nourished a set of values it believes in for the health of its existence. The individual is expected to adhere the norms so prescribed by these systems. The development of science and technology, industrialization and other aspects of social dynamics have left a serious impact on the thought process of the individual, their life styles, their economic standards and consequently on their attitude of life and its relationships. The value system have accordingly changed over a period.

Pursuits of truth, righteous action, unconditional love of fellow beings, promoting peace through community activities were deemed as the icons of learned persons and scholars. Caring and sharing were considered as the basic traits of any good individual. The recent information explosion, media expansion and materialistic view of life have brought declining ethics and ethos.

**“Politics without Principles,
Education without character,
Science without humanity,
Commerce without morality
are**

not only useless, but positively dangerous.

The prime source of value inculcation for the individual is the family. The school comes next only to the family in order of institution providing the value climate, but is always looked upon as a powerful institution in achieving this goal. The academic education of today is shallow because it has no value orientation.

The process of globalization has brought about global information flow through several type of media. Both print media and electronic media are great threat to the cultural values. Yet another dimension of the conflict is between the conventional and the modern values. The advancement of science and technology has raised many question on the conventional belief and systems of the individual and the society. We live in this momentous times. This is the best time and perhaps, this also the worst. Mindless violence stalks the World. Crime rule the roots. The exploitation of the have-nots by the haves is terrifying. At all levels corruption has become a way of life. Peace of mind has become a cruel joke.

Caught in this whirlpool, it is the rising generation that is most affected. Youth has immense courage, is full of optimism and is sensitive to noble ideas and ideals. Cultivation of Human value alone is education.

What the World needs today is neither a new order, a new education, a new system nor a new religion. But a Role Model.....

ROLE MODEL:*The greatest attribute of a role model is an ability to inspire others. Role model influence youth for success. They choose role model based on the mindset they develop towards accomplishing their goals.*

ROLE MODEL QUALITY

- *Demonstrate self awareness with insight into their own values, stick to principles, consistent, kind and courteous.*
- *Track record of honesty and fair treatment of others.*
- *Influential, change –maker, able to challenge the status & diplomatic*
- *Authoritative and responsible, with capacity to inspire respect from colleagues*
- *Politically astute, Calm Under pressure and able to take risks.*
- *Pushes the boundaries and makes new ground a first of some kind.*
- *Demonstrates range of human strength and weakness, willing to learn and grow. True to themselves, who they are and what they stand for,*
- *Tenacious, persistent and can withstand pressure.*
- *Capacity to work with challenging situation and people.*
- *Able to handle failures and recover from knockbacks.*

Role models show passion for their work and have the capacity to infect others with their passion. Role models live their values in the world. They show commitment to their communities. They have the ability to overcome obstacles

SHORTAGE OF ROLE MODELS

The youth are the symbol of a Nation enthusiasm, energy and hope. If we cannot make their irrepressible energy flow in proper and useful channels, all our national projects will go down the drain. They must imbibe noble qualities and become good human being.

There is a solution to the problems of the youth. The solution lies in re establishing the self confidence of the youth, is showing them the way of regaining their faith in themselves. When an individual becomes aware of his own tremendous potentiality, when he realizes that he himself is the architect of his future, he tries to come up in life.

When young people have a growth mindset, they are more likely to choose role models that provide the kinds of strategies that support their way of thinking. There are no shortage of role models. Many illustrations and example can be quoted in this regard.

Gandhiji imbibed the spirit of spiritual message in his life and inspired his countrymen to live in his life of selfless service for the good of the nation.

Swami Vivekananda gave a clarion call to the people to imbibe the spirit of true religious idealism as laid down by our great seers, based on the eternal and universal truth, which respects all religions.

The well known historian Arnold Toynbee made prediction towards the middle of this century; “India will conquer her conquerors culturally, not politically”

Demosthenes, the Greek orator, showed that the power of speech was greater than the power of the king. He could not speak properly. But after incessant practice, he overcame these difficulties, He became a Greek orator and inspired his audience.

Edison the inventor of electric bulbs, failed nine hundred times in his experiment. Still he continued his experiments with patience. James Watt spent thirty years to complete the fabrication

of his new machine. Leonardo Da Vinci painted his famous 'LAST SUPPER' when he was seventy seven years old.

The last message of Pavlov, the famous Russian Psychologist, " Passion and gradualness" motivated his students. To achieve high efficiency and success in any field, we need an ardent desire in the subject and the patience be proceed slowly and steadily in the task. The list goes on

CONCLUSION

" In the final analysis there is no other solution to man's progress but the day's honest work, the day's honest activities, the day's, generous utterance and the day's good deed"

~ CLARE BOOTH LUCE

Education must enthuse youth to understand their precious heritage, culture and spirituality. When they acquire spiritual values, humans values will grow in them. Human values are in everyone. What we need are persons who will provide the stimulus and the encouragement to bring them out.

If the feelings of the divinity that is present in everyone, is one and the same, is promoted among all, human values will sprout naturally in every person.

A JOURNEY OF GROWTH AND GRATITUDE

25 YEARS WITH SBOA When I first walked into the doors of SBOA Matriculation and Higher Secondary School in June 2000, the institution was just 15 years old and I was filled with hopes and dreams. Little did I know that this institution, which was also growing and evolving, would become such a significant part of my life. Today, as I celebrate my 25th year of service, I recollect my journey in SBOA with a sense of gratitude and joy. I have had the privilege of being a part of SBOA's Silver Jubilee, Pearl Jubilee, and now, its Ruby Jubilee, the milestones that have marked both the school's growth and my own. I began my journey here as a Primary Teacher, and over the years, I have been blessed to serve as a Middle School Teacher and then as a High School Teacher. Now, as an Assistant Headmistress, I look back on the years with profound appreciation for every moment and every lesson. This journey would not have been possible without the support and guidance from all my Correspondents, Principals, and fellow teachers, who believed in me and shaped me into who I am today. I am also eternally grateful to my family, whose love and unwavering support have been my anchor through all these years. Their constant encouragement has made all the difference in my life. Though I have gathered countless experiences and invaluable lessons, what I hold closest to my heart is the student community. Every year, I meet hundreds of young souls, each with their own story, and my happiness lies in discovering them. Through my work, I believe that I have touched their lives in ways that will last a lifetime. When I meet the alumni, it fills my heart to hear them recall their memories about me - the understanding and compassion I show, the joyful spirit I bring into the classroom, the "Parts of Speech" song that still echoes in their minds, the silent prayer with which I begin each class and so on. These moments are etched in their hearts, and they are a testament to the lasting bond we share. To me, teaching is more than just a profession, it is a vocation. I truly believe that a teacher has the magical power to change lives, to inspire, to guide, and above all, to love. As I reflect on these 25 years, I can only say, "Thank you, SBOA, for making me the person I am today. You are undoubtedly my second home and my source of strength." A BIG SALUTE TO SBOA! LONG LIVE SBOA!

**MRS. SHOBHA K I,
ASSISTANT HEADMISTRESS**

ART OF PARENTING

The art of parenting is indeed a multifaceted and dynamic process, requiring a deep understanding of both the child's needs and one's own capacity to nurture and guide.

1. Creating the Right Atmosphere. Creating a nurturing environment is foundational in raising a child. The atmosphere should be filled with:

- *Love and Care: This is the bedrock of all good parenting. It is not just about meeting the physical needs of the child but also their emotional and social needs.*
- *Discipline and Joy: Balance is key. A child should experience both the structure of rules and the freedom to enjoy life without excessive fear or pressure.*
- *Fostering Growth: The goal is to allow the child to explore their own potential, not necessarily to make them follow the same path you did. Every child is unique, and your role is to help them flourish in their own way.*

2. Know What Your Child Needs. Every child is different, and their needs will vary accordingly:

- *Personalized Attention: Rather than imposing a one-size-fits-all approach, tailor your parenting to your child's personality, strengths, and weaknesses.*
- *Avoid Overburdening: Parents often have dreams and aspirations that they wish to pass on to their children. However, this can sometimes create unnecessary pressure. It's crucial to understand where your child thrives and where they may need more freedom.*

3. Just Let Them Be

- *Allowing a child the space to discover themselves is critical:*
- *Freedom to Explore: The parent's role should be to create an environment where the child can learn about the world independently. Let them interact with nature, think for themselves, and explore different interests without being overly controlled.*
- *Non-imposition: Parents should avoid imposing their own beliefs, expectations, and biases onto their children. Instead, offer support and encouragement for the child to develop their own views and identity.*

4. Be a Joyful, Peaceful Being

- *Before guiding others, it's essential to nurture your own well-being:*
- *Self-awareness: Reflecting on your own life—your behavior, actions, and emotional state—will allow you to be a better role model for your child. When a parent is at peace with themselves, it creates a positive ripple effect on the child.*
- *Inner Peace Leads to External Calm: Parents should model the emotional and behavioral qualities they wish to see in their children. Children are incredibly perceptive and often mirror their parents' actions, so maintaining a joyful and peaceful demeanor is vital.*
- *Work on Yourself: Parenting isn't just about shaping the child; it's about continually working on your own personal growth, too. By becoming the best version of yourself, you will inherently provide better guidance for your child.*

SUMMARY:

The essence of successful parenting lies in creating a balanced environment where love, support, freedom, and joy coexist. Each child is unique, and understanding their individual needs while fostering their independence is crucial. A peaceful, self-aware parent is in the best position to offer wise and compassionate guidance. Ultimately, parenting is about letting your child grow into their own potential, equipped with the values and support they need to thrive in the world.

HEADMISTRESS**

ALUMNA ARTICLES

Name: Senthil Vivekanandan

Director, Cost Management, Lear Corporation, USA.

My name is Senthil Vivekanandan, and I am thankful for the opportunity to be part of this Ruby Jubilee prestigious souvenir. I don't want to sound stereotypical, but SBOA schooling was my best time. We will only appreciate it when we get into the real world. I would like to convey my gratitude and thankfulness to the great SBOA and its faculty for having been a part of my life. My time at SBOA has taught me and prepared me for the ups and downs in real life. The faculty interaction and coaching have helped me come a long way in my life. I am currently working in the USA in the costing and pricing field. I sincerely think that SBOA has been an integral part of my success. I made mistakes, and the faculty have always been accommodating and correcting me in what is 'right' and 'wrong.' Again, I would like to thank the faculty and the students for the opportunity to convey my views.

Let's keep up the SBOA spirit, and let's help each other.

**Thanks
Senthil Vivekanandan
Batch – 1994**

To my dearest Alma mater SBOA

One page of words cannot do justice to the memories made over a period of 14 years.

I want to start off by thanking my family members who made the decision to admit me in this lovely school in 2001. I was just a 4 year old kid stepping into the campus crying my eyes out as I was being separated from my family. Then in 2015, I had the same tears as I had to leave the SBOA campus with a heavy heart. A school is not just the classrooms or benches, but it is a group of people who have shaped a person into a young adult. I remember all my teachers who have instilled good values and thoughts into my young mind which has made me the person I am today. There were always healthy competition among my classmates to be the topper and they are now my best friends. There were moments spent reading stories in libraries, goals scored in the football ground, experiments done in Science labs which will be cherished for my whole lifetime. I am doing my final year of Anesthesia Residency in Safdarjung Hospital Delhi and I am grateful to be a student of SBOA."

**S. Rajaselvam
Batch 2015**

My School's Contribution to My Profession and Life

I am Prabhunarain, a proud alumnus of SBOA Matriculation and Higher Secondary School, Coimbatore, where I studied from 1990 to 2002. If you're wondering whether I was one of those outstanding students, the answer is no—I was the "OUTEST-STANDING" student, often found standing outside the school gate, mastering the art of being "regularly irregular." Back then, I had a keen interest in science (definitely not in math) and was far from being a high scorer. With no clear vision of the future, just a tiny spark of curiosity about business, I wandered through school life. Fast forward to today, that clueless boy who often sat bewildered in class has somehow transformed into an entrepreneur—ironically, in the very field of science and technology that once left him mystified. Now, I proudly wear the hats of an Intellectual Property Rights consultant and the Director and IP Head of Gagnant Financial & Legal Consultants LLP, part of the Gagnant Group in Coimbatore. My profession involves discussing everything from genetic engineering to space engineering—a far cry from the puzzled child I once was. Looking back, it's evident that the foundation my school and my respectful teachers laid—despite my best efforts to remain outside the classroom—has been instrumental in shaping my journey. SBOA Matriculation and Hr. Sec School, Coimbatore. Now, after long many years, writing my school name in its fullest gives me a spark, a smile on my lips, and a heart full of gratitude. This "outest-standing" student owes it all to SBOA—

Thank you for being the springboard to my success!

**With Regards
Prabhunarain S
Patent Agent (INPA-3440)
Batch – 1990-2002**

I pen this foreword for the Ruby Anniversary of SBOA Matriculation and Higher Secondary School, Coimbatore. As a close friend and colleague of Dr. Narassima, an esteemed alum of this prestigious institution, I have witnessed firsthand the remarkable impact SBOA has had in shaping individuals into accomplished professionals and compassionate citizens. SBOA nurtures academic excellence and fosters values of discipline, integrity, and innovation. Its legacy of setting benchmarks in holistic education has created a community of alumni making a difference across diverse fields.

The alums exemplify the ethos of SBOA through their dedication to solving complex real-world challenges, a testament to the strong foundation laid during their formative years at the school. The school has prepared its students to excel and lead in their respective domains by continually adapting its curriculum to meet the demands of an evolving world. The focus on innovation and practical learning, combined with a nurturing environment that encourages curiosity and resilience, equips its students to think beyond conventional boundaries and make meaningful contributions to society. As someone deeply involved in academia and innovation, I find SBOA's commitment to creating a balanced environment for intellectual, emotional, and social growth inspiring. Its alumni embody the school's mission of excellence and are shining examples of the power of quality education. On this momentous occasion, I extend my heartfelt congratulations to the management, faculty, and students of SBOA Coimbatore. May this Ruby Jubilee mark the beginning of an even more incredible legacy, inspiring generations to dream big and achieve greatness.

GRATITUDE LETTER TO S.B.O.A MATRIC HR SEC SCHOOL

"The very essence of education is concentration of mind, not the collecting of facts."

Swami Vivekananda

On the momentous occasion of S.B.O.A School's 40th anniversary, I am deeply grateful for the holistic education I received within its esteemed walls. The emphasis on extracurricular activities, such as sports and clubs, under the watchful eyes of our teachers, instilled in me discipline, teamwork, and leadership skills that have been invaluable in my journey as an Army officer.

In today's rapidly evolving world, students face unique challenges such as navigating the digital age, developing critical thinking skills, and addressing global issues. S.B.O.A School has the potential to play a crucial role in guiding students through these challenges. By fostering creativity, encouraging innovation, and promoting a culture of global citizenship, the school can equip students with the necessary skills and knowledge to thrive in the 21st century.

S.B.O.A School, with its nurturing environment and the unwavering support of its faculty, including dedicated educators like Mr. Ramesh Babu & others instilled in me a strong work ethic, a sense of responsibility, and a deep appreciation for the values of integrity and service, all of which continue to guide me in my professional and personal life.

I wish S.B.O.A School many more years of success, achieving greater heights and continuing to shape the future of generations to come.

2003 - Batch of S.B.O.A

Hi, my name is AJAY S, During my school days, I was very active in sports, and I would like to share the lessons I learned from both my failures and successes. The sport I practiced is Taekwondo, a martial art. I started practicing Taekwondo when I was 8 years old.

Until I was 12, I faced many failures, but at the age of 13, I won my first gold medal at the RDS/BDS Sports Meet. From this, I want to say that I spent 5 years learning valuable lessons through my failures and challenges.

The most important thing is that I never lost sight of my goals, no matter how many failures or successes I faced. I was always clear about my path, and nothing could stop me. I wasn't an extraordinary student, but I was a unique student, and I earned a reputation within the school that helped build my confidence.

I owe all my achievements and progress to my mother and my motivator, Mrs. Chandra from the Physical Education Department. I got into college through the sports quota counselling conducted by the Directorate of Technical Education, and due to my sports achievements and skills, I have become a Security Executive Officer at Reliance Industries Limited.

In 2018, I represented India and won a gold medal at the South Asian Games held in Nepal, organized by the Olympic Committee. This was the greatest achievement of my sporting career so far.

My request to students who pursue sports is this: Respect and love the sport you choose. Embrace the rules, the conditions, the process, the emotions, the pain, and the challenges. You must enjoy them and follow them to become a disciplined athlete. Never doubt the importance of following what your coach says.

My second piece of request is for parents: Believe that children can balance both sports and academics if they are truly capable. There is a common myth that focusing on sports will cause academic performance to suffer. This is not the reality. In fact, sports can keep the brain active and sharp. Athletes tend to think in different ways compared to other students. Parents should understand that students who are dedicated to their studies will continue to study, no matter what else they are involved in.

AJAY S
Batch – 2017
South Asian Player, Taekwondo.

"From Mischief to Mastery: SBOA Moulded My Future"

As I reflect on my journey from a student to where I am today, I realize the foundation for my achievements was laid during my time at SBOA School. Looking back, I can confidently say that it was the experiences, support, and values instilled in me that shaped my future in ways I could never have imagined.

I joined SBOA in 2002, entering the 4th standard from a Hindi-medium school in Rajasthan. The transition to an English-medium school was challenging, and I initially felt overwhelmed by the new language, environment, and expectations. However, the unwavering support from my teachers and the nurturing environment transformed what could have been a daunting experience into a life-changing one.

I wasn't always the model student, though. I was one of the more notorious ones, often finding myself in the Headmistress' or Principal's room for my little adventures! But despite my mischievousness, my teachers never gave up on me. They saw potential in me and always guided me with patience and care, ensuring I grew into a confident individual. Beyond the books, the time spent with friends was what made school truly memorable. From fun pranks to long conversations during lunch breaks, those were the moments that taught me the importance of laughter, creativity, and teamwork. After completing 12th Standard When I left in 2011, I felt ready to take on the world. Since then, I've had the privilege of working in diverse fields like business development, finance, and leadership. The knowledge and skills I gained in school, along with the confidence my teachers helped me build, were essential in my career journey. The mindset I developed—the belief that with dedication and a positive attitude, I could achieve anything—is what I cherish most.

As this school celebrates its Ruby Jubilee, I am filled with immense pride for the institution that helped shape my journey. The influence of my teachers, friends, and this school community has been a guiding force in my life, and I am forever grateful.

Founder – A Tulsian and Co.,
Batch– 2002 – 2011

Celebrating 40 Years of Excellence at S.B.O.A. Matric & Higher Secondary School, Coimbatore:

A Grateful Alumni's Reflection

As S.B.O.A. Matric & Higher Secondary School, Coimbatore, celebrates its 40th anniversary, I, Keerthika Sree M, an alumna of the class of 2017, reflect with gratitude on the profound impact this institution has had on my life. My journey at S.B.O.A. was more than just an academic experience—it was where I found the foundation of my values, character, and determination. When I first walked into S.B.O.A., I was unsure of what the future held. Little did I know that the teachers here would not only guide me academically but also nurture qualities of resilience, curiosity, and responsibility. Their passion, patience, and belief in my potential helped me aim higher and strive for excellence, teaching me that learning is a lifelong pursuit.

Beyond academics, S.B.O.A. provided an enriching environment that encouraged me to explore my interests in sports, music, dance, and cultural activities. These experiences helped me build confidence, leadership, and teamwork skills—qualities that have been invaluable in my personal and professional life. The school instilled in me the importance of discipline, hard work, and integrity. It taught me that success is not an overnight achievement, but the result of consistent effort and dedication. The friendships I formed here were equally meaningful, transcending the classroom to create bonds of mutual support, camaraderie, and lasting memories.

As I reflect on my journey, I carry with me the confidence to face challenges, the empathy to support others, and the ambition to continue growing. S.B.O.A. not only helped me achieve academic success but also shaped me into a well-rounded individual who is driven to make a positive impact on the world. Today, as the school celebrates 40 years of excellence, I am proud to be a part of its legacy. The lessons, experiences, and memories will always be a cornerstone of my life. Thank you, S.B.O.A. Matric Higher Secondary School, for shaping me into the person I am today. Here's to many more years of inspiring and transforming the lives of future generations!

Happy 40th anniversary!

Ar. Keerthika Sree M
Senior Designer/ Architect,
Beta Makers Lab, Bangalore
Batch 2017

A Memorable Journey

My journey at SBOA Coimbatore has been a memorable and enriching experience. From the first day I entered the school, I felt a sense of belonging and excitement for what lay ahead. The warm and welcoming atmosphere, along with the well maintained campus, immediately made me feel at ease.

Starting as a young student, I remember the friendly faces of my teachers and classmates. SBOA Coimbatore's focus on holistic development allowed me to grow not just academically, but also in terms of character and personal values. The teachers were always approachable and they fostered a learning environment where every student could thrive.

The school's emphasis on discipline and hard work shaped my approach to studies, while also encouraging me to stay curious and passionate about learning. I was able to participate in various extracurricular activities including sports, music and cultural events. These activities not only gave me a chance to explore my interests but also helped me develop leadership skills, teamwork and confidence.

The values instilled in me, the lessons learned and the opportunities provided have helped me grow academically, socially and emotionally. I will be always carrying with me the experiences and memories of my wonderful, unforgettable journey @ SBOA Coimbatore, a school that will ever hold a special place in my heart.

As an ending note I would like to express my sincere gratitude to our Principal for her visionary leadership and commitment to excellence, my heartfelt thanks to our incredible teachers for your dedication, patience and countless hours you invest on the students in ensuring our growth not just academically but also as individuals.

You are all the heart and soul of this school and we are lucky to have you. Thank you for inspiring us every single day! ***Jai Bharath***

Gokulram.M
Batch - 2013- 2014.

THE FOUNDATION OF MY SUCCESS: A TRIBUTE TO MY ALMA MATER

My journey of learning has been an enriching one, and a significant part of this enriching experience can be attributed to the nurturing environment provided by my alma mater, SBOA. For me, 'SBOA' is not merely a school name; it's a tapestry woven with a decade of experiences, emotions, and memories that deeply resonate with me.

I vividly recall the nervous anticipation as I stepped into the school in the third grade. My mother, who was keen on getting me into this school, hyped me up with words of encouragement on my first day. We met with Padma Ma'am, my then-class teacher who assured my mom that I would fit in just fine. Though I was skittish about the new environment, strict discipline, and the large classes in the beginning, I settled into the routine. Never knew that it would mark the beginning of a transformative journey.

The emphasis on both academics and extracurricular activities was truly unique. I began to appreciate the

supportive environment and the opportunities it offered. The school fostered an environment of intellectual curiosity and collaborative learning. The classrooms were not just spaces for lectures, but vibrant hubs of discussions and debates. The emphasis on critical thinking and problem-solving, particularly in subjects like Physics, Mathematics, Chemistry, and Computer Science, ignited a passion for exploration within me. The rigorous curriculum, coupled with the dedication of our teachers, pushed me beyond my perceived limits, encouraging me to delve deeper and strive for excellence.

The teachers were not just educators; they were mentors and friends whom I revere deeply. Their unwavering support, their belief in my potential, and their patient guidance were instrumental in my academic success. They instilled in me a love for learning, a thirst for knowledge, and a confidence in my abilities that I carry with me even today. Their friendly and approachable nature created a welcoming atmosphere, making it easier to seek help and engage in meaningful discussions.

Beyond the academic rigor, the school fostered a strong sense of community. I was always happy to say I was an alumnus/alumna of SBOA. To say the school was my second home would be an understatement. There were times when I felt more comfortable being in school than at home. The countless hours I spent on the football ground, reluctant to leave at the end of the day - a memory that would likely resonate with many fellow students. The bonds forged with my classmates were invaluable. We supported each other through challenges, celebrated each other's successes, and created memories that will forever hold a special place in my heart. The friendships nurtured within these hallowed walls have proven to be a source of constant support and encouragement, enriching my life in ways beyond measure.

The school not only equipped me with a solid academic foundation but also instilled in me essential life skills such as time management, teamwork, and public speaking. The confidence I gained from these experiences has been invaluable in my personal and professional life.

In conclusion, my sincere gratitude goes to SBOA and the entire faculty for providing me with the foundation upon which I have built my future. The quality of education, the supportive environment, the enduring friendships, and the unwavering support of the faculty have all played a pivotal role in shaping me into the individual I am today. I am forever grateful for the opportunities and experiences that my alma mater has afforded me.

Contribution of SBOA Matric and Higher Secondary School, Coimbatore in my career development

Hello Everyone,

*This is **Dr Arun Raaza**, Founder CEO of ARCOMM which is a technical child skill development MNC having its presence in India, USA, UAE & Oman. We train school 20000+ school children in current and emerging technologies globally. I myself an innovator with 120+ Patents, 50+ International Publications and one of my Innovations is deployed across 5000+ nationalised bank ATMs for power conservation. I am also a recipient of several international & national awards for innovations and achievements. I am good in Innovations & my career because of discipline, never give up attitude, strong basics in technologies and*

communication/drafting skills. All these skills were imparted in my life automatically because of my education at SBOA Matric and Higher Secondary School, Coimbatore. My teachers at school shaped up my career and gave me the strong platform that an aspiring student needed in life.

1) Discipline was taught to me by all the school Principals & Staff members.

2) Never give up attitude was cultivated to me by my mentor & PT Master Christopher Sir.

3) Strong technical skill was nurtured in me by my physics teachers like Jagadeeshan Sir, Ravi Sir, Thiruvartselvi Ma'am, Sudha Ma'am & Maths teachers like Jayaraman Sir.

4) I developed good communication & drafting skill with the support of my English teachers.

So overall my career foundation was laid strongly at SBOA, Coimbatore for which I will be always grateful to my school.

Thanks & regards,
Dr Arun Raaza,
Founder CEO of ARCOMM
(India, USA, UAE & Oman)

MESSAGE

As a proud and successful alum of SBOA Matriculation and Higher Secondary School, Coimbatore, it is with immense gratitude and honour that I write this on the School's Ruby Anniversary. This milestone celebrates the School's legacy and its profound impact on us, SBOAns. Foremost, I extend my heartfelt thanks to my parents for their unwavering support and giving me the invaluable gift of education at SBOA. The School has been my second home, and its teachers have been nothing less than guiding lights, shaping my personality and instilling the confidence to. Their commitment to extend their support beyond the classroom, whether in academics, personal growth, or life's challenges, is a defining feature that remains unparalleled. The values imparted during my tenure at SBOA have had a lasting impact, helping me understand and appreciate the significance of every event in life. These lessons, combined with innovative teaching pedagogies, a well-structured curriculum, and various extracurricular activities, have made us resilient individuals capable of confidently navigating the world's complexities. The friendships and global network of SBOAns are lasting treasures, fostering connectivity and knowledge-sharing while highlighting the strong bonds for med at School. The School's emphasis on holistic education goes beyond textbooks, focusing on building character, leadership, and adaptability. Reflecting on my journey, I feel an overwhelming sense of pride to be an alum of this prestigious institution—a sentiment shared by thousands of SBOAns worldwide. The values, knowledge, mentoring, and friendships that SBOAns given us will always be our guiding force as we contribute to society in our respective ways. May we continue to illuminate the paths of countless students for generations to come, shaping them into compassionate and competent individuals.

Warm Regards,
Dr. Narassima M.S., Assistant Professor, Great Lakes Institute of Management, Chennai-600130

Dr B Anugraha Prasanna, MBBS, MS, FVRS
Head of Vitreoretinal Services

“Moving from St. Francis Anglo Indian Girls High School to SBOA Matriculation and Higher Secondary School (2005-2008) was a big step for me. I was nervous about leaving behind my old friends and familiar teachers, and I wondered how I would adjust to an entirely new environment. But from the moment I stepped into SBOA, my fears started to fade. Everything about the school felt warm and welcoming—the teachers were approachable and kind, and my classmates were so friendly that I quickly felt like part of a family. I still remember how every day brought new experiences and learning opportunities. The vibrant school culture, coupled with the excellent guidance I received in the Bio-Maths stream, not only helped me excel academically but also shaped me into a more confident and well-rounded person. Beyond academics, SBOA taught me values like resilience, teamwork, and the importance of believing in myself. Those years at SBOA were some of the best of my life. The memories I made, the friends I found, and the lessons I learned have stayed with me ever since. SBOA wasn’t just a school; it became a second home that shaped me into who I am today.”

Dr. S. Nirangjhana, MBBS, MD, DNB
Senior resident academics
DM Clinical and Interventional Physiology resident
Department of Physiology
AIIMS Patna

Dear SBOA Matriculation and Higher Secondary School Family,

I am truly honored to be a part of the 40th Anniversary celebration of this esteemed institution that has played a significant role in shaping my life. It is with immense gratitude and pride that I write this letter, reflecting on my journey from LKG to 12th standard at SBOA and beyond.

My educational journey began at SBOA, where I spent over a decade, growing both academically and personally. From LKG to 12th, SBOA provided me with not only an excellent curriculum but also a nurturing environment that encouraged curiosity, discipline, and hard work.

During my 10th standard, I was fortunate to achieve a perfect score of 100% in Mathematics and 98% in Science. These results were the outcome of consistent effort and the excellent guidance I received from my teachers. In my 12th standard, I furthered my success by securing 98% in Physics, Chemistry, and Biology, which paved the way for my admission into medical school.

After completing my 12th standard at SBOA, I pursued my MBBS degree from 2010 to 2016 at Government Dharmapuri Medical College. The foundation laid by SBOA's rigorous academic environment proved invaluable during my time in medical school. Subsequently, I completed my MD in Physiology at PSG Institute of Medical Science and Research, Coimbatore, from 2017 to 2020.

In addition to my MD, I also pursued the DNB Physiology degree, further expanding my expertise in the field. I have also completed a Fellowship in Family Medicine (FFM), which has allowed me to broaden my medical practice and focus on holistic care for patients. Currently, I am pursuing my DM in Clinical and Interventional Physiology at AIIMS Patna, where I continue to build on the knowledge and skills I acquired throughout my academic career.

One aspect of my journey that I am especially proud of is that I never attended any extra tuitions outside of school. The excellent education I received at SBOA, combined with my own dedication, was sufficient for me to excel and follow my passion for medicine and research.

Today, as a physician specializing in Physiology, I am continually growing professionally and making strides in the field of clinical and interventional physiology. I owe much of my success to the values and knowledge imparted to me at SBOA, and I carry those lessons with me every day in my work.

As SBOA celebrates this monumental 40-year milestone, I would like to extend my heartfelt congratulations to the school, its leadership, and all my teachers who continue to inspire countless students. I am proud to be an alumnus of such a remarkable institution and will forever cherish the memories of my time there. Thank you for being a cornerstone of my academic and personal development. I look forward to seeing SBOA continue to thrive and shape future generations of leaders.

With warm regards,
Dr. S. Nirangjhana

Patna,
29.12.2024.

A SALUTE TO SBOA ON ITS RUBY JUBILEE

*"Four decades of excellence, a milestone achieved,
A Ruby Jubilee celebration, memories to be relived.
Forty years of growth, of trials and of might,
A testament to perseverance, shining with delight.
With ruby red, a symbol of passion and fire,
We honor the spirit, that has never tired.
Through forty years of service, dedication and care,
You've earned this celebration, and the accolades that share.
Your legacy is built, on the foundations of the past,
A heritage of excellence, that will forever last.
You've touched the lives of many, through your work and your might,
A Ruby Jubilee celebration, a beacon shining bright.
Here's to many more years, of continued success and growth,
May your future be bright, and your spirit forever glow.
Congratulations on forty years, a milestone achieved with pride,
May your Ruby Jubilee celebration, be a memory to abide."*

TEJOVANTH G, VII-A

MY TEACHER

*The two holiest room:
Mother's foetus salon
And teacher's class room,
Where the ideas zoom.
Learning is human identity,
Teaching is human integrity.
One who starts learning is called learner,
Who continues learning is called teacher.
Not only education instructor,
A learning instigator.
Not a creator of mark runners,
A builder of thinkers.
Not just a problem solver,
A producer of concern fixer.
Not only a exterminator of darkness,
A torch of brightness.
A blanket when we feel cold,
Maker of 24 carat gold.
A special friend,
Who turns to our trend.
She does not adorn her name by many degrees,
She adorns her mind by reading many volumes.
Narrates many lore,
Teaches lesson to the core.
Kanchi echos Anna's name,
Kashmir echos Nehru's fame.
Our school echos your name,
Who burns like a candle flame.
To the world you are a teacher,
To us you are our mother.
A gift from above,
Who bestows love.
She has a flower's name,
Insight subject sane.
She has the name of a wafer
And she is my favourite teacher.*

SREE VARSHANA A, IX C
WHAT MAKES MY SCHOOL SPECIAL

My school, SBOA Matriculation and Higher Secondary School, Coimbatore, is a truly special place. From the moment I step through its gates, I feel a sense of belongingness and excitement. One of the things that makes my school stand out is its dedicated and supportive teachers. They go above and beyond to ensure that each student receives the attention and guidance they need to succeed. SBOA School's rich history and legacy of academic excellence are evident in its strong reputation in Coimbatore. The school's commitment to providing quality education is reflected in its well-equipped classrooms, state-of-the-art laboratories, and extensive library. Another aspect that makes my school unique is its diverse and inclusive community. Students from different backgrounds, cultures, and abilities come together to learn, share, and grow. This diversity fosters empathy, understanding, and lifelong friendships. My school offers a wide range of extracurricular activities, clubs, and sports. From quiz and current affairs discussion to art clubs, and cricket to basketball, there's something for everyone. The school's emphasis on holistic development ensures that students can explore their passions and interests outside the classroom. The school's administration and staff work tirelessly to create a safe, nurturing environment that encourages students to reach their full potential. The school's values of discipline, hard work, and respect for others are instilled in every student. What I love most about my school is the sense of pride and spirit that permeates every aspect of school life. From the annual day celebrations to the sports day events, there's always something to look forward to. In conclusion, SBOA Matriculation and Higher Secondary School, Coimbatore, is special because of its exceptional teachers, diverse community, wide range of extracurricular activities, commitment to excellence, and infectious school spirit. It's a place where I feel seen, heard, and valued, and I'm grateful to be a part of it.

PRASANESH P, IV – A

HOW I OVERCAME STAGE FRIGHT BECAUSE OF SBOA

How does stage fright feel like to you? For me, my heart would race, and any bit of confidence I had would vanish before I even reached the stage. Standing in front of the crowd, my knees felt like they might buckle at any second and I gripped the microphone so tightly. My hands ached. The words I spoke came out shaky and filled with fear. And after each speech, I always walked away feeling like I had not done well at all. This happened to me during the early stages when I used to experience stage fright a lot. Stage fright can hold you back from life-changing opportunities that can shape your future. In this article, I will explain how I overcame stage fright and how my school played an integral part in this journey.

First things first: Why do we experience stage fright? Generally, the main reason is that we are afraid of how our audience might react. What if they think that I am not deserving of this opportunity? Or worse, what if they think my speech is awful? While the feedback from teachers or the audience can be valuable, constantly worrying about how they might react can make us anxious, causing us to forget the real purpose behind the speech. Other factors include lack of preparation, no enough time, the expectation of perfection on your very first try, inexperience, and constantly comparing yourself to others. One great advantage of SBOA is that the teachers are always ready to review your performance and offer that encouraging pat on the back, helping you approach the stage with confidence.

However, I did not enjoy my first speech at all. The anxiety and constant feeling of 'I am not good enough' overwhelmed me. But, with some experience and participation in competitions, I gradually discovered just how much I enjoyed it. If it had not been for the teachers of SBOA encouraging me to participate in elocutions—especially when I did not believe in myself—I do not think I would have ever discovered my passion for public speaking. I would have stayed forever in the audience instead of standing on the stage.

Along this journey, I have learned several key strategies to overcome stage fright. First, always focus on the purpose of your speech instead of doubting yourself. Body language plays a huge role, so stand tall, keep your volume strong, and if you are feeling nervous, try moving around the stage to calm yourself. If you are feeling a bit more confident, make eye contact with the audience and maintain a steady tone throughout your speech. Practice is essential—especially in front of a mirror if you can. One of the things I love about SBOA is that we celebrate many special occasions, which always provide opportunities to practise and improve our skills. Students are consistently encouraged to participate in activities that bring out their best. Breathing exercises can also help to steady your nerves. Before stepping onto the stage, remember that it is just an experience, and it will help you

grow regardless of how you perform. It is perfectly normal to feel nervous, but how you manage that nervousness is what truly matters.

Having overcome stage fright, I am now confident in my abilities. I focus solely on doing my best, and as a result, my skills have greatly improved. Overcoming stage fright was not easy but the support of my school, parents, and teachers was invaluable in this journey.

It was because of SBOA and its wonderful teachers that I was able to pursue and improve my passion for public speaking. I am truly grateful to SBOA for consistently providing me with countless opportunities and serving as a wonderful platform to express my talents. So, the next time you are asked to perform on stage, remember to take a deep breath and let yourself flow. It may not be perfect—nothing ever is—but as long as you are doing your best that is what truly matters. Because it is not the fear that we must conquer, but the courage to face it.

SRI KUNDHAVI E.S, IX-E

THE MARKET PLACE MUSE

*Good exchange from hand to hand,
A web of deals across a land.
Exchange of value both begin small,
Commerce unites us, connecting us all.
Commerce grows with kill and fate,
Creating wealth that is truly great,
Let's connect with market don't be late,
Creating success and interpretational state.
In bustling street were buyers roam,
The heart of trade finds at home.
Market thrive with vibrant sight,
Where day meet night and take its flight.
From market noisy with vibrant sight,
To online stores that light up the night
In busy market with dreams are unfold,
Commerce comes alloy with stories to be told.
With every sale of story's told,
Of innovation and dreams to unfold.
With booming markets with the laughter and cheer,
To online store that feels so near.
People exchange their goods every day,
Build connections in their own way.
With each little deals trust starts to grow,
Create a bond that helps us to flow.
Commerce's beauty in its simple form,
A handshake, a smile, a mutually beneficial norm.
With every hand shake a promise made,
In trust value a foundation laid.
In boardrooms and warehouse passion ignite,
As entrepreneur and CEO's shape the commerce light.
A world that connects a global stage,
Where business meets and commerce engaged.*

UNNATI JAISWAL

XI – F

THE REAL WEALTH

The real Wealth.... I would start with, humans can do everything but, they do not possess that power. The power is nothing but 'Will'. Will Power is also an important thing to do a task or take a risk. Let me quote a famous proverb, which helps, to boost your will power, "Where there is a will, there is a way". Will power makes you perform a task, efficiently.

Another requisite quality is hardwork. Hardwork, is the main thing which helps us to do task easier, but it is not easy. A hardworking person can win but cannot lose, is my point of view. It is hard but when practised it is much easy.; 'The only genius that's worth anything is the genius for hardwork,' is a proverb which describes hardwork.

Focus, is also an important thing in doing a task. Distractions destroy focus and will collapse the work. Focus is not seeing; it is avoiding distractions. A work is complete in sculpting without distraction is an example. The proverb 'The successful warrior is the average man, with easer – like focus', is a famous proverb which defines the term "Focus". Being a hardworking person is important, but being smart is also a main quality in doing a work. Being smart makes the work easy. There is a formula: -

WORK SMART + WORK HARD = WORK EASY

Some may think money, land, own house etc., is the real wealth. But above these if we use the above formula in life, we can make wealth which is everlasting.

Another important thing is our family. Parents gave us life and brought to this Earth, they do, everything for us. So, all our glory, fame should go to our parents. 'Good health is above wealth' is the proverb, and the fact is 'health' is very important and it is greater than wealth.

The above words are not words alone but treasures. Let us try to follow them and make a better life. Finally, I would end with a quote, "You are your own sculptor, who could sculpt a beautiful 'You'".

ADITHIYA K – VII D

THE JOURNEY OF INSPIRATION - TO RISE BEYOND LIMITS

Man can become anything when he's inspired. We've had many people to inspire us in life- our friends, family, celebrities or even social reformers. One such major inspiration to me is Bhawana Kanth. Flight Lieutenant Bhawana Kanth is one of India's first three female fighter pilots, making history by challenging gender norms in the Indian Air Force. Bhawana grew up with a fascination for flying. She dreamt of becoming a pilot, inspired by stories of the Indian Air Force and the excitement of aviation. She joined the IAF in 2016 as part of the first batch of women fighter pilots, alongside Avani Chaturvedi and Mohana Singh. In 2019, Bhawana Kanth became the first female fighter pilot in India qualified to undertake combat missions on fighter jets. She quotes that "If you have a dream, don't just sit and wait for it to come true. Chase it with passion and determination". Having shattered the glass ceiling in the Indian Defence Forces, she is a testament to the fact that one can achieve anything when they set their mind to it. She continues to inspire millions, including myself, pushing us to embrace our desires and find our footing in this world while serving the nation.

DEEKSHA D, IX-B

TRIUMPH TREPIDATION

Stage fright used to paralyze me. The thought of standing in front of an audience made my hands shiver and my mind go blank. But at SBOA, I learnt to conquer it. It started when I was unexpectedly selected for an inter-house elocution competition. Terrified, I begged to back out, but my teacher encouraged me, saying, "You don't know what you're capable of until you try." I practised endlessly, but on the day of the event, standing on stage felt overwhelming. I took a deep breath, started speaking, and something amazing happened—the audience wasn't judging me; they were listening. Their smiles gave me confidence, and by the end, I felt proud, even though I didn't win. That day changed everything. With the support of my teachers and peers, I turned the stage from a source of fear into a space for growth. SBOA taught me that courage begins with belief in oneself, a lesson I'll always carry forward.

SHRUTHI B, XI –D

THE ROLE OF EDUCATION IN REDUCING INDIA'S SOCIAL INEQUALITIES

Education plays a vital role in reducing social inequalities in India by providing individuals, especially from marginalized communities, with the tools to improve their socio-economic status. Access to quality education enables people from lower castes, rural areas, and economically disadvantaged backgrounds to break free from the cycle of poverty and discrimination. Through education, children can gain the skills necessary to compete for better job opportunities, challenges, traditional social hierarchies, and promote social mobility initiatives like reservations in higher education and scholarships for underprivileged students. Additionally, education fosters awareness of rights and social justice, Empowering people to demand equality and challenge societal biases. By focusing on inclusivity and equal access, education can be transformative force in India's deeply entrenched social structures.

SANJEEVINI SANTHA A.P.S, IX D

MY JOURNEY AT S.B.O.A

School life is the best time in everyone's life. My school life has been an amazing journey so far. I started my education in a small primary school. My journey at S.B.O.A started in my 3rd grade with lots of beautiful memories. My initial days were marked by nervousness and then I adjusted to a new world filled with unfamiliar faces. But it didn't take me long time to make friends. The teachers at S.B.O.A were more than educators who encouraged me a lot. This encouragement made me to think beyond textbooks and allowed me to explore more. I always maintained a good record in my academics. While academics formed an integral part of my life, it was the extracurricular activities at S.B.O.A that truly completed my experience.

Perhaps, the most cherished part of my journey is the friendship I made. This journey provided a supportive environment where I have been able to form a meaningful relationship with my classmates. My friends were my partners in every adventure, my support in my challenging times and my companions in my countless joyous moments.

My journey at S.B.O.A is a chapter I will always hold close to my heart. This journey where I learned and the relationship I built will forever remain a part of who I am. S.B.O.A will always be more than just a school for me. It is a place that gave me foundation to dream, to strive and to achieve. This journey continues happiness.....

SHREENIDHI S.L, IV – D

ASSERTIVE APLOMB

Stage fright was once my biggest obstacle, keeping me from confidently expressing myself in front of an audience. I was a timid student in my early days, often shying away from opportunities to speak or perform. However, thanks to the unwavering support and encouragement from my teachers and family, I successfully conquered my fear and discovered my passion for communication.

It all began with my kindergarten teacher, Mrs. Radhika Rajendran. She was the first person who saw the potential within me and inspired me to step out of my comfort zone. Her gentle encouragement brought out my innate talent for speaking and laid the foundation for my journey of self-confidence.

When I reached second grade, my English teacher, Mrs. Shobha K. I., who also served as the Assistant Headmistress, became a beacon of inspiration. She recognized my abilities and constantly motivated me to improve my communication skills. Her faith in me gave me the courage to take on more challenges, helping me grow not just as a student but also as an individual.

Then came the pandemic—a time of uncertainty and isolation, where the world seemed confined to electronic screens. It was during this period that Mrs. Jeeva Senthil, our Vice Principal, became my guiding light. She encouraged me to use my time productively and suggested a simple yet transformative exercise: sending her a daily thought as a voice message. This practice not only honed my pronunciation but also nurtured my interest in public speaking and compering.

Finally, I owe a great deal of gratitude to my mother. Her unwavering belief in my potential and her constant efforts to nurture my communication skills played a vital role in my transformation. She instilled in me a love for language and the confidence to share my thoughts effectively.

Today, as I stand on stage, the memories of my journey fill me with gratitude. From being a shy and hesitant child to becoming a confident speaker, my school and teachers have been instrumental in shaping who I am. They taught me that stage fright is not a barrier but an opportunity to grow—and for that, I will always be thankful.

My journey is a testament to the power of encouragement and the profound impact educators and family can have on a child's life. I hope to carry forward their lessons, inspiring others to overcome their fears and discover their true potential.

NEHA MICHELLE A, VII B

SPECIAL ABOUT MY SCHOOL

Every year, thousands of new high school graduates pack their bags, move to new cities, and explore the world all around them. Now guess, where did they achieve their success from? Of course its from the school, where they get educated and come out with bright colours. I am Ankus from class IV D to share about my school's speciality. First of all, I would thank our teachers who are very supportive and dedicated towards the students, understand their needs, and are available to help them. Our school is specially exposed to many co-curricular activities which help the students to overcome their fear and enrich themselves with knowledge and current affairs. Our school has a Community of respect and love for everyone. Even every year our school shuffles the classes with every section. to ensure that the children get a chance to connect with peers, form friendships, and build important social skills. Through team sports, group activities, and collaborative projects, they learn to work together and communicate well; Hence I conclude by stating that our school "S.B.O.A" is the best, was the best and will be the best in future.

ANKUS BAG A, IV-D

MY COUNTRY

*India is Our Country
Goa is for beauty,
Delhi is for majesty,
Bengal is meritocratic,
Punjab is patrotic,
Kashmir for lakes,
Andaman for rakes,

Bihar for mines,
Sikkim for pines,
Karnataka for silks,
Uttar pradesh for milk,
Nagaland for hills,
Haryana for mills.*

RAKSHITA P IX – A

CLASSIC TAMIL

A Jargon of virtue From the north to south, east to west, ascending mountains and deep oceans have a long history but are not geriatric than Tamil. A language known for its evolution, culture, ethnicity and alluring history, it also has a splendid history. The fame of this language is so vast and immeasurable that it cannot be described in simple words. This language is the apple of my eye and I have a great desire and passion to learn Tamil. As rare as a hen's teeth, Tamil is a masterpiece. Praise unto you Goddess Tamil whose majestic youthfulness fill me with awe and ecstasy. Tamil is like a face beauteous of earth clad in wavy seas. Deccan is her brow Crescent. Plunging the world in joy, reigns Goddess Tamil with renowned spread far and wide. From lemuria to present day Tamil has a cavernous impact on passionate Indians, inhabitants of Sri Lanka, Malaysia, and Singapore etc... I'm a proud ancestry of this Tamil clan.

SUBHASHINI R, IX E

“THE HISTORY OF MATHEMATICS” – 4 MAGICAL MATH

The history of mathematics deals with the origin of discoveries in mathematics and the mathematical methods and notation of the past. Before the worldwide spread of knowledge, new mathematical developments have come to light only in few areas. The Levantine state of Ebla began using arithmetic, algebra and geometry and they used astronomy record time and formulated calendars. The scripts of ancient period are from Mesopotamia and Egypt. The study of mathematics started in the 6th century BC by the Pythagoreans who coined the term 'mathematics'. The Greek word "Mathema" from which mathematics was coined means “What one learns”. The ancient Romans applied mathematics in structural engineering, book keeping etc., and Chinese also used mathematics in various places. Greek and Arabic texts on maths were translated into Latin. In the past 100 years mathematics has changed a lot.

Mathematics is not just a subject learnt in school—it's the language of the universe. From the patterns in nature to the technology in our pockets, math is everywhere. It reveals the hidden structures of the world, making it one of the most powerful tools we have. At its core, math is about problem-solving. Every equation is a puzzle, and every solution uncovers a deeper understanding. Whether it's the simple arithmetic of daily life or the complex algorithms that power artificial intelligence, math is the key to making sense of the world. But math isn't just about numbers. It's about connections, relationships, and abstract ideas. Geometry shapes the world around us, from the buildings we live in to the art we admire. Algebra allows us to find unknowns, solving problems we never thought possible. And calculus gives us the power to understand change—how things move, grow, and evolve. The beauty of math is that it's everywhere, waiting to be discovered. Whether you're solving an equation, designing a bridge, or predicting weather patterns, math connects us to the world in ways we often don't see. It's not just about getting the right answer—it's about seeing the world through a new lens.

It's basically one's perspective towards life!

HARSHITHA S C, IX B

INDIA & WORLD WAR II

India's role in World War II was significant yet intertwined with its struggle for independence. Automatically drawn into the war by Britain in 1939, Indian leaders opposed participation without guarantees of freedom. Despite this, over 2.5 million Indian soldiers served in key battles, making the British Indian Army one of the largest volunteer forces. India also supplied vital resources, though this strained its economy, leading to inflation and the devastating Bengal famine of 1943.

The Quit India Movement of 1942 and Subhas Chandra Bose's Indian National Army highlighted growing resistance to colonial rule. While the war showcased Indian bravery, it also exposed the flaws of British governance. By 1945, India's contributions and sacrifices were undeniable, and the war accelerated its march toward independence in 1947.

India's experience during World War II was a turning point in its path to independence. The sacrifices made by Indian soldiers and the hardships faced by civilians exposed the flaws of colonial rule, strengthening the resolve for self-governance. This period of struggle and resistance set the stage for India's eventual independence in 1947, marking the end of British dominance and the birth of a new nation.

CHRISH KEVIN S, X - C

SPECIAL HERO

Father holds my hand for short while but he holds my heart forever.

He is an amazing human being and a great father.

I look at him as my hero.

He is the pillar and support for my family.

He faces all the difficulties of life without letting it come to us.

He is my mentor in all means and leads me ahead.

He sacrifices all his desires so that we can live happily.

My father is my first teacher who taught me all the manners and ethics of the life.

He is a strict disciplinarian.

My father is my best Friend because he always stays aside in every situation I face and never let me down.

My father is a special hero for me.

I am blessed to have a father like you.

I am ever grateful to God for having given a precious treasure to me in form of my father.

He is a role model and an inspiration to me.

I want to thank him at this juncture for all that he has done to bring the best out of me.

B. M. MEEHA SRI

HOW HAVE YOUR FAILURES SHAPED YOUR LIFE?

"Failures are the part of life,

If you don't fail, you don't learn,

If you don't learn, you'll never change".

There is no one in the world who has not seen any failures in life. Failures are the steps to success. Failures gives us a lesson that we should not commit mistake. We should not procrastinate and the work thinking that is not good for us. We should try again and again to get succeeded. As A.P.J Abdul Kalam said if you fail, never give up because fail means" First attempt in learning it remains us to view failure in a position light we should try our best. You will be the happiest person with excellent managing skills. So don't give up try again and again till you get "Victory called "success".

PUZZLE BUZZ

The Missing Dollar

3 Friends go to a restaurant and order a meal costing \$ 25. They give the waiter \$ 30. The waiter returns \$ 5 but decides to keep \$ 2 as a tip and gives \$ 1 back to each friend .Now each friend has paid \$ 9 (\$27 total) and the waiter kept \$2. But $\$ 27 + \$ 2 = \$ 29$. Where did the missing dollar go?

Answer:

The friends paid \$ 30.

The bill paid was \$ 25, so the waiter returned \$ 5.

The waiter kept \$ 1 back to the friends (\$ 1 each)

The Key Point:

Each friend effectively paid \$ 9 (\$27 total). Out of this \$ 27:

\$ 25 went to the restaurant.

\$ 2 went to the waiter.

The “missing dollar “is an illusion caused by adding \$ 2 (tip) to \$ 27 (total paid), which does not make sense.

Instead, the correct breakdown is:

\$ 27 paid = \$ 25 (bill) + \$ 2 (tip). There is no missing dollar! The puzzle relies on a misleading way of framing the math.

DEEPAK KUMAR .M, III - D

MATH BINGO

It seems very peculiar to you but. I have just drawn a triangle where all the angles are square number. Each angle measured in degrees, is a square number.

Clue: The total of three angles in a triangle is 180.··

Can you remember what is a square number?

Eg: 1x1 , 2x2 , 3x3 etc

Answer:

Remember the problem; the triangle with all the angles being square number ! (The total three angles in a triangle is 180.

Square number :

$$1^2 = 1 \times 1 = 1, 2^2 = 2 \times 2 = 4, 3^2 = 3 \times 3 = 9, 4^2 = 4 \times 4 = 16, 5^2 = 5 \times 5 = 25, 6^2 = 6 \times 6 = 36, 7^2 = 7 \times 7 = 49, \\ 8^2 = 8 \times 8 = 64, 9^2 = 9 \times 9 = 81, 10^2 = 10 \times 10 = 100$$

$$\text{ANS : } 100 + 64 + 16 = 180.$$

S. YALENI IX - B

Golden life!

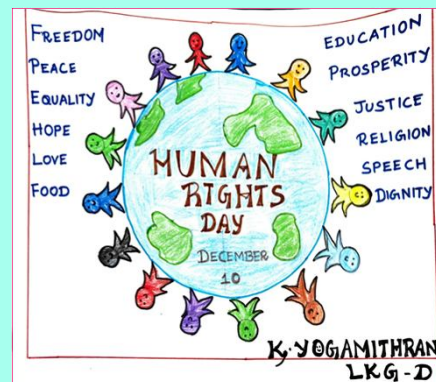

Coming back to the roots of our ancestral tree, we are gaining loads of information to survive in a society, to build a society, and to face the issues in a society. One of those lessons is a Gold and life, which is "Golden life." The reason for this topic is that recently a few people have collapsed, and how to find the true one among the clones. Because having a fake relationship is like letting one's hand into a poisonous snake's mouth. Then what is the solution? It is given in Chanakya neeti by Chanakya. A gold is tested in four ways: rubbing with one another, cutting it, heating it, and pounding it. Similarly, a man is tested with 4 main techniques. Whether he sacrifices anything to save his relationship, whether his character is qualified, whether his habits are good enough, and whether he has good deeds. These are the 4 main methods to know how a person is. If all these are certified, then he is the fortunate person who has a golden life!
