Strong GK

After witnessing the 'Know for Sure' Quiz, I realised how such programmes motivate learners to think beyond their textbooks. The range of questions—from quick factual prompts to challenging analytical problems—encouraged participants to think fast, stay focused, and answer boldly. The session taught students to remain calm under pressure, trust their preparation, and express their ideas clearly. One of the quiz's biggest advantages was the impressive general knowledge displayed by the students. Exposure to history, current affairs, geography, mythology, currencies, heritage sites, and more expanded their understanding of the world.

Looking back on my days at SBOA, I feel immensely grateful for the wonderful encouragement and support I received from my teachers.
